PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with a strong foundation in Artificial Intelligence, Machine Learning, Data Structures, and Python programming. Skilled in developing machine learning models, data analysis, and AI-driven applications using Python, TensorFlow, Scikit-learn, and Pandas. Passionate about solving real-world problems through AI and continuously exploring advancements in Machine Learning, Deep Learning, Computer Vision, and Generative AI. Seeking an opportunity as an AI/ML Engineer to contribute technical expertise while growing in a challenging environment.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL
Machine Learning & AI: Machine Learning, Data Analysis, Predictive Modeling, Generative AI Fundamentals
Libraries & Tools: Pandas, NumPy, Scikit-learn, TensorFlow, Git, GitHub, Jupyter Notebook
Web Technologies: HTML, CSS, JavaScript, React, Full Stack Development Fundamentals

EDUCATION

Excel Engineering College
Bachelor of Engineering (Computer Science and Engineering)

- CGPA: 8.0/10

Government Higher Secondary School, Erabaiyanahalli
Higher Secondary Certificate (HSC)

- Percentage: 78%

Government Higher Secondary School, Erabaiyanahalli
Secondary School Leaving Certificate (SSLC)

- Completed Successfully

PROJECTS

AI-Driven Smart Recruitment and Talent Analytics Platform

- Developed an AI-powered recruitment platform that automates candidate screening and job matching using machine learning techniques.
- Improved hiring efficiency through intelligent candidate analytics, recommendation systems, and data-driven decision making.
- **Technologies:** Python, Machine Learning, Data Analytics, Scikit-learn

Mini Cart - E-Commerce Shopping Application

- Built a responsive shopping cart application with product listing, cart management, and dynamic quantity updates.
- Implemented an interactive user interface and optimized state management to improve the shopping experience.
- **GitHub:** github.com/Deepika1814/mini-cart
- **Technologies:** React, JavaScript, HTML, CSS
