SUMMARY

I am an enthusiastic IT undergraduate with skills in HTML, CSS, and Python, and have a interest in Java and UI/UX design. I enjoy building creative and user-friendly applications. I have actively participated in CATCH and SAP Hackathons conducted at my college, which helped me gain teamwork and problem-solving experience. I am eager to apply my skills, explore new technologies, and grow through real-time development opportunities

EDUCATION

Mahendra Engineering College — Salem , India

Bachelor of Technology – Information technology — Sep 2023 – May 2027

ACADEMIC PROJECTS

Quantum Key Personalization with Smart Digital Locker | Java | Python |

- Developed a secure digital locker system using encryption techniques and personalized key-based access control
- Implemented user authentication, secure data storage, and controlled access mechanisms to protect sensitive information
- Enhanced system security by focusing on privacy, data protection, and reliable retrieval of stored data

Digital Twin AI Learning Platform | Python | Flask | HTML | CSS | JavaScript |

- Built a full-stack AI-powered learning platform using digital twin concepts to provide personalized user experience
- Integrated advanced features including AI tutor, resume scoring, smart course recommendations, and roadmap generation
- Designed an interactive learning environment with study optimization features and adaptive user-based suggestions
- Developed backend using Flask for handling user data and implemented responsive frontend for better usability

EXPERIENCE

Mobile app Development [Jan 2023 – Feb 2023]

- Gained basic knowledge of mobile app development concepts and workflow
- Assisted in developing simple application features and functionality
- Worked on basic UI design to improve user experience
- Learned development tools, debugging techniques, and coding practices
- Gained hands-on experience in a real-time development environment

ACHIEVEMENTS/CERTIFICATIONS

- **Mobile app development** -Built basic mobile applications using Java, understanding layouts and activity lifecycle.
- **Python(Infosys Springboard)** - Learned Python programming in fundamentals including file handling and simple GUI with Tkinter.
- **Bootcamps** – Attended Bootcamps on AI Powered IOT , React js .
- **Mongo DB** - Understood core NoSQL database concepts and performed CRUD operations using MongoDB.
- **UI/UX** – Earned certification with practical knowledge in wireframing , prototyping and usered centered design

TECHNICAL SKILLS

- **Programming Languages** - Java, Python
- **Web Technologies** - HTML, CSS, JavaScript
- **Database** – MongoDB , mySQL
- **Tools and platform** - Git, GitHub, Canva , Figma , linux , VS code , Mysql Work bench , Eclipse
- **Languages known** – Kannada , Tamil , English , Japanese
- **Concepts** – Object Oriented Programming , Database Management System

SOFT SKILLS

Communication , Problem-solving , Adaptability , Leadership , Time management
