Bank Management System | *Java, JDBC, MySQL* **July 2025-Augest 2025**

- Built a Java-based banking application with account management and transaction features.
- Integrated MySQL database using JDBC for secure data storage.
- Implemented OOP concepts, exception handling, and input validation for reliable operation.

Event Horizon – Event Management System | *PHP, HTML, CSS, JavaScript, MySQL* **June 2025-July 2025**

- Built a web-based event management application using PHP, HTML, CSS, JavaScript, and MySQL.
- Developed user registration, event booking, and event management functionalities.
- Designed responsive web pages and integrated a MySQL database for efficient data management.

Technical Skills

Programming Languages: Java,Python, HTML, CSS, JavaScript, SQL, PHP
Frameworks & Technologies: React.js, Node.js, Express.js, Bootstrap, Firebase Authentication
Databases: MySQL, MongoDB, Firebase Firestore
AI & Machine Learning: Machine Learning, Deep Learning, OpenCV, TensorFlow, AI-based Image Processing, Generative AI
Developer Tools: Visual Studio Code, Eclipse IDE, Android Studio, Google Colab, XAMPP, Git, Microsoft 365
Web & Mobile Development: Responsive Web Development, REST APIs, Android Application Development

Extracurricular

iVolunteer **Aug 2026 – Present**

Student Volunteer

- Participated in community service initiatives, contributing to social impact through volunteer activities and public engagement.
- Collaborated with teams to support community welfare programs and awareness campaigns.

Indian Red Cross Society (IRCS) **Jan 2026 – Present**

Member

- Contributed to community service initiatives by participating in blood donation camps and public health awareness programs.
- Supported humanitarian activities focused on promoting health, safety, and social responsibility.

Google Developer Groups (GDG) Salem **Nov 2025 – Present**

Member

- Participated in technical workshops, coding sessions, and developer community events.
- Enhanced technical knowledge and collaboration skills through active community engagement.

VIMUSHALAN R

Full Stack Developer & AI/ML Enthusiast

vimushalan@gmail.com linkedin github 9486882167 Salem , Tamilnadu

PROFESSIONAL SUMMARY

ECE student with practical experience in web development and application building. Worked across frontend and backend while integrating APIs and delivering functional projects. Applies a problem-solving mindset and increasingly leveraging AI/ML concepts to build smarter, data-driven solutions.

SKILLS

Programming Languages: Java , Python , C++, C

Front-end Development: HTML , CSS , JavaScript , React.js , Next.js

Back-end Development: Node.js , Express.js , REST APIs

Database: MySQL , MongoDB

Frameworks: Bootstrap , Tailwind CSS

ML/DS: Linear Regression , Logistic Regression , Gradient Descent , Decision Trees , Random Forest

Version Control: Git , GitHub

Computer science fundamentals: OOPS Concepts , Data Structures & Algorithms , Computer Networks , DataBase Management System .

CERTIFICATES :

NPTEL

- Programming in JAVA
- Programming, Data Structures and Algorithms using Python
- DataBase Management System (Top 5%)

MAPATHON

WINNER – IIT Bombay FOSSEE-AAI Geospatial Mapathon 2025

PARTICIPATED IN

- Paper Presentation at GCE Erode
- Coding Event at GCE Bargur
- Coding Event at GCT Coimbatore

HACKATHON

Smart India Hackathon (SIH) — Internal Hackathon Participant

WORKSHOP

Embedded Systems with IoT

EDUCATION

Government College of Engineering, Salem,
B.E – Electronics and Communication Engineering
2023 – 2027
CGPA – 8.58/10 (Up to 6th semester)

Rasi Matric Higher Sec School, *HSC (12th)*
2022 – 2023
91.6%

PROJECTS

CareQ - AI Powered Hospital Appointment Booking System
01/2026 – 04/2026

Designed and implemented an AI-powered hospital appointment booking system with an end-to-end workflow: landing page → user authentication → dashboard → guided 3-step booking (select doctor, choose date/time, review & confirm) with real-time availability, AI assistant support, and admin panel for managing doctors and tracking appointments.

Tech Stack: *React.js, Next.js, Node.js, Express.js, PostgreSQL, Tailwind CSS, and REST APIs with email notification integration.*

CookSmrt - AI Powered Cooking Assistant Web App
03/2026 – 04/2026

Built a web application that simplifies cooking for people living alone, featuring 20+ recipes with step-by-step instructions, ingredient lists, wishlist saving, and direct ingredient ordering via Instamart integration.

Integrated an AI-powered cooking assistant chatbot using Groq API to provide real-time recipe guidance and cooking help.

Tech Stack: *React.js, Groq API, Tailwind CSS, REST APIs.*

PROFESSIONAL EXPERIENCE

AI/ML Engineer Intern, *Ocean Pulse Health*

Built a **PDF research bot** using **Ollama**-powered LLMs, letting users upload a PDF and get instant Q&A on its content.
Implemented document parsing and query-response pipeline for accurate, context-aware answers from uploaded PDFs.
