

# EZHILARASU S

COMPUTER SCIENCE & ENGINEERING STUDENT

## CONTACT

• Mettur, Salem, Tamil Nadu 636453
• ezhilarasu987@gmail.com
• linkedin.com/in/ezhilarasu-s-310201311
• github.com/ezhilarasu-s
• hackerrank.com/profile/ezhilarasuezhil1
• D.O.B: 20-07-2006

## CORE COMPETENCIES

• Python, Java (Basics)
• PyTorch, TensorFlow
• Pandas, NumPy, OpenCV
• MySQL, PostgreSQL
• Git, GitHub, Docker

## KEY ATTRIBUTES

• Problem-Solving Ability
• Teamwork & Collaboration
• Critical Thinking

## SPECIALIZATION AREAS

• Artificial Intelligence
• Machine Learning
• Data Science
• Data Engineering

## CERTIFICATIONS

• Computer Vision 101
• Deep Learning for Developers
• Introduction to Natural Language Processing
• AI Development — Rinex
• Python & Problem Solving — HackerRank

## RESPONSIBILITIES

• Actively participated in learning and development activities
• Took initiative to learn new tools and technologies
• Worked effectively in team projects
• Supported peers in academic work

## ABOUT ME

Motivated and detail-oriented Computer Science Engineering student with hands-on experience in Artificial Intelligence, Machine Learning, and Data Engineering. Comfortable working with Python, PyTorch, SQL, and modern data-processing tools. Interested in building practical AI and data-driven solutions.

## EDUCATION

**Excel Engineering College | 2023–2027**

• Bachelor of Engineering (B.E.) - Computer Science and Engineering
• CGPA: 7

**Government Higher Secondary School | 2022**

• 12th Matric Board Percentage: 71%

**Government Higher Secondary School | 2020**

• 10th Matric Board Percentage: PASS

## TECHNICAL PROJECTS

**Hospital Management with AI Agent (Web Application)**

• Tools: HTML, CSS, JavaScript, Python, MySQL
• Built a web-based AI assistant that handles patient queries such as appointments and billing. MySQL manages structured hospital data.

**Crop Recommendation System**

• Tools: Python, PyTorch, Random Forest, Kaggle
• Developed a crop recommendation system using soil and environmental conditions to suggest suitable crops from an agricultural dataset.

**Weather Forecasting System**

• Tools: Python, PyTorch
• Developed a time-series weather forecasting project using previous-year weather data to predict future conditions.

## PRACTICAL TRAINING & INDUSTRIAL EXPERIENCE

**Springer Capital Investments LLC | 2026**

• Data Engineering Intern | Jul 10 – Sep 10, 2026
• Worked on ETL pipeline development, workflow automation, data processing, and automated data ingestion.
• Used Python, Pandas, SQL, Apache Airflow, Docker, PostgreSQL, MinIO, Parquet, Git/GitHub, and YAML schema contracts.
• Worked on schema validation, data transformation, database loading, object-storage integration, and data-quality checks.

**Qmos Technology, Chennai | 2026**

• Duration: 7 Days
• Learned the basics of AI-based embedded systems and IoT applications.
• Got practical exposure to how AI can be used in embedded and IoT projects.
• Worked on understanding basic system workflows and AI applications.

**Rinex | 2025**

• Duration: 30 Days
• Worked on AI automation tasks, data preprocessing, and chatbot development using Python and TensorFlow.
• Learned how to prepare and process data for AI applications.
• Gained hands-on experience in developing simple AI-based solutions using Python and TensorFlow.

## ACHIEVEMENTS

• INNOVERSE'26 – 24 Hrs Hackathon, Excel Engineering College.
• SIH – College Level Winning.
• HackerRank – Problem Solving (Basic), Python (Basics), and 5-Star Problem Solving badge.
• Successfully completed projects in Full Stack Development and AI.
