Web Development: Reactjs**,** Next.js**,** REST APIs, Responsive Web Design, Bootstrap, SCSS.
Mobile Development: Flutter, Dart, Cross-Platform Developement.
Tools & Platforms: Git, Github, Vs Code, Android Studio, Postman, Docker, Antigravity, Figma, Adobe Illustrator, Adobe Photoshop.
Architecture: Clean Architecture, MVC, Modular Development, Version Control, Code Review.

Professional Experience

Web Developer | Wspl Hosting Solution OPC Private Limited
August - 2025 - July 2026

- Developed a responsive e-commerce website using Typescript, Next.js, Rest APIs, based on Client requirement and UI/UX designs.
- Converted Figma designs into responsive web pages with product listings, galleries, service showcases, and ordering functionality.
- Integrated Whatsapp and email ordering features.
- Performed responsive testing, debugging, deployment and client handover.
- Focused on performance, scalability, responsive design and SEO optimization.
- Used Git, GitHub, Pull request, Integrating APIs and Backend Services.
- Developed product management functionality for handling product, categories, galleries, services, and website content.

Flutter Developer Intern | Wspl Hosting Solution OPC Private Limited
February 2025 - July 2026

- Developed and deployed Flutter applications LocalTV for real-world users.
- Developed flutter mobile applications along with supporting web-based admin panel using PHP for managing application content, users, channels and data.
- Built the OTT platform using FLutter and PHP including a web-based admin panel for managing the ISP streaming workflow and local TV channels.
- Implemented HLS/M3U8 Live streaming using video_player and Chewie with channel browsing, custom playback controls, full-screen playback, buffering support, and error handling.

Freelance Web Developer | Self-Employed
2025 - Present

- Independently developed and deployed a full-stact client web application using TypeScript, Nest.js, React, Rest APIs, Vercel and Netlify.
- Managed projects from requirements gathering and proposal preparation to development and deployment.
- Designed and developed reusable frontend components using React and Next.js.
- Integrated Rest APIs to connect the frontend with application services.
- Executed comprehensive responsive testing across 10+ devices and browsers, rectifying 15 critical bugs before client handover, ensuring flawless user experience.
- Optimized image loading on e-commerce platform by implementing lazy loading techniques, improving average page load speed by 1.5 seconds for key product pages.

Educations

Bachelor of Engineering - Computer Science Engineering

- **Avs Engineering College, Salem, Tamil Nadu.**
  Batch 2021-2025 | GPA: 8.2/10

Higher Secondary (HSC) - Maths-Computer Science

- **Sengunthar Matriculation Higher Secondary School, Salem, Tamil Nadu.**
  Batch 2021 | 464.86/600
- **Sengunthar Matriculation Higher Secondary School, Salem, Tamil Nadu.**
  Batch 2020 | 332/600

Secondary School Leaving Certificate (SSLC)

- **Sengunthar Matriculation Higher Secondary School, Salem, Tamil Nadu.**
  Batch 2019 | 349/500

Developer Highlights

- Developed and deployed Flutter applications, landing pages, E commerce, Semi E-Commerce websites.
- Gained hands-on experience with ISP OTT Platforms and HLS/M3U8 live Streaming.
- Worked with Git, Github, pull request, code reviews, and development proctices.
- Experienced in taking applications through the complete lifecycle, from requirements and development.
- Delivered a Full-stack clients web application from requirements gathering through deployment.
- Maintained 31+ Public Github repositories covering Flutter, TypeScript, Web Development.

Declaration

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge and belief.
