OBJECTIVE

B.Tech Information Technology student with hands-on experience in Python, Generative AI, LLM applications, FastAPI, APIs, and backend development. Experienced in building AI-powered applications, WhatsApp Business automation, and chatbot solutions using Gemini API and modern AI workflows. Eager to learn new technologies, contribute to organizational growth, and develop my professional skills while working with a dynamic team.

EDUCATION

Bachelor of technology (Information technology) - 8.4
Mahendra engineering college, Namakkal. 2023-2027
Higher education (HSE) - 82
ST.Joseph's Girl's hr sec school,Dindigul. 2020-2023

TECHNICAL SKILLS

Languages	Python,Java(Basics)
AI and LLM	Generative AI, LLM Applications, Prompt Engineering, Google Gemini API, AI Chatbots
Backend and APIs	FastAPI, REST APIs, Webhooks, SQLAlchemy
Databases	SQL,MongoDB
Software Development	SDLC, Requirements Analysis, Coding, Debugging, Testing, Technical Documentation
Developer tools	Visual studio code,Github,Notepad++

PROJECTS

AI Powered Interview Coach: Built an AI-powered interview preparation platform that generates personalized questions by role, topic, and difficulty level using the Google Gemini API.Developed logic to evaluate user answers, track performance and weak areas, and deliver adaptive questions, scoring, and detailed feedback.

Tech Stack: Python, Streamlit, Google Gemini API, AI/LLM, Git GitHub.

Gamified Learning Platform: Designed and developed a mobile-based learning application in Kotlin with offline accessibility for rural students.Implemented gamification features (quizzes, rewards, progress tracking) to improve student engagement, applying structured coding and testing practices throughout.

Tech Stack: Android Studio, Kotlin, XML, SQLite, Android SDK, Gradle, Git GitHub.

CERTIFICATES AND CERTIFICATIONS

- IBM-Python for data science.
- Microsoft - Introduction to Generative AI .
- MongoDB University - Basics for MongoDB.
- NPTEL - Programming in Java,Human computer interaction.

INTERNSHIPS

Software Developer Intern-Yuga Yatra Pvt.Ltd. Nov2025-Jan 2026
Developed and tested features for live web and mobile applications (Bol Saathi.com) using modern software development workflows and AI-assisted coding tools.Collaborated within a cross-functional team to review system requirements, implement solutions, and debug issues in existing code.

AI Prompt Engineer Intern-Codingbodhi Pvt.Ltd. Aug 2026-Nov 2026

Developed a WhatsApp Business Automation system to support the company's business development activities,Worked with Python, FastAPI, PostgreSQL, SQLAlchemy, Gemini API, Meta WhatsApp Cloud API, Webhooks, and Cloudflare Tunnel. Also Built an AI-powered chatbot for the company website to assist visitors with queries and provide automated support.

2027

DURAIRAJAN G

PROFESSIONAL SUMMARY

Final-year B.Tech student in Artificial Intelligence and Data Science with hands-on machine learning, deep learning, and generative AI experience: multi-agent analytics platforms, offline retrieval pipelines, fine-tuned language models, and CNNs. Skilled at turning data and language models into reliable, deployable solutions.

EDUCATION

K.S. Rangasamy College of Technology | B.Tech, AI and Data Science | 2023 – Present | CGPA: 8.41/10
Coursework: Machine Learning, Data Mining, DBMS, Software Engineering, Agentic AI

TECHNICAL SKILLS

- **Languages:** Python, SQL, Java, C, R
- **Frontend:** React, Vite, Tailwind CSS, Framer Motion
- **Generative AI:** RAG, LLM Fine-Tuning, Prompt Engineering, Hugging Face, Ollama, GGUF Quantization, LangChain, LangGraph
- **Agentic Systems:** Autonomous Agents, Multi-Agent Orchestration, Tool Integration, Workflow Automation
- **Machine Learning & Deep Learning:** Scikit-learn, TensorFlow, Keras, Neural Networks, CNNs, Text Classification, Feature Engineering, Model Evaluation
- **Retrieval & NLP:** FAISS, Vector Databases, Embeddings, Semantic Search, PyMuPDF
- **Deployment:** FastAPI, REST APIs, Docker, Docker Compose, GitHub Actions, Jenkins, CI/CD, Streamlit, Git
- **Data & BI:** Pandas, NumPy, SciPy, Plotly, Matplotlib, Jupyter, EDA, Power BI, Tableau
- **Databases:** MySQL, PostgreSQL, SQLite, MongoDB, Redis, SQLAlchemy

PROJECTS

AI Data Analyst Platform | *Python, FastAPI, LangGraph, Pandas, Redis, MySQL, React* | GitHub
- Architected a LangGraph multi-agent system that profiles CSV/Excel data, plans analysis, validates results, and reports findings in plain English.
- Built 15+ deterministic Pandas tools, Plotly charts, and a FastAPI service routing between Gemini and Groq, with optional Tavily research.
- Added Redis caching, JWT authentication, MySQL storage, Docker Compose deployment, GitHub Actions CI, and 72 passing tests.

Offline RAG Document Assistant | *Python, FAISS, Ollama, LangChain* | GitHub
- Engineered an offline PDF Q&A assistant using retrieval-augmented generation and an open-source LLM.
- Indexed PyMuPDF-parsed chunks as local embeddings for semantic lookup.
- Cited file name, page number, similarity score, and confidence with every answer.

AI Ticket Routing System | *Llama 3.2 3B, Hugging Face, GGUF, Streamlit* | GitHub
- Designed a classifier that routes queries to Sales, Support, or Technical teams.
- Fine-tuned the base network on a cleaned, labeled JSONL corpus.
- Compressed the result into GGUF for a cached, instant-response web interface.

AI Digit Recognition System | *TensorFlow, Keras, FastAPI, React, Tailwind CSS* | GitHub
- Trained a CNN on the Kaggle MNIST dataset and served predictions through a FastAPI endpoint.
- Built an animated dashboard with a live drawing canvas, confusion matrix, accuracy/loss charts, and prediction history.

WORK EXPERIENCE

Data Analytics & ML Intern | Imagivite Technology Pvt. Ltd., Tiruchengode, India | Jul 2025 – Aug 2025
- Explored, cleaned, and selected features from raw datasets with Pandas and Scikit-learn.
- Delivered full machine learning pipelines spanning training, validation, and metric evaluation.
- Translated findings into business reports backed by charts and predictive forecasts.

ACHIEVEMENTS & CERTIFICATIONS

- **Digital Engineering Certification** – NASSCOM/ER&D, Gold grade, 74% score.
- **1st Prize, Short Film Contest** – VYuga Ability Carnival, Nexyuga Innovations (LiCRA Cultural Club team).
- **Campus Ambassador Certificate** – RINEX Pvt. Ltd., for outstanding initiatives (Oct–Nov 2023).
