2027

KEERTHIKA A

Thanjavur, Tamil Nadu | +91 63800 81224 | linkedin.com/in/keerthika5

PROFESSIONAL SUMMARY

Final-year B.E. Computer Science and Engineering student with a strong interest in Full-Stack Development and AI, backed by 3+ internships and hands-on experience across 14+ projects. Demonstrated problem-solving, teamwork, and innovation through participation in 15+ hackathons. Strong academic performer with active involvement in extracurricular activities like NSS. Committed to continuous professional development through Japanese language learning and technical skill advancement.

EDUCATION

B.E., Computer Science and Engineering 2023 – 2027
Kongunadu College of Engineering and Technology CGPA: 9.11

Higher Secondary Certificate (HSC) 2022 – 2023
St. Joseph's Girls' Higher Secondary School Percentage: 91.33%

Secondary School Leaving Certificate (SSLC) 2020 – 2021
St. Joseph's Girls' Higher Secondary School Status: Pass

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Development: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB

AI Technologies: Machine Learning (ML), Deep Learning, Natural Language Processing (NLP), Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Speech-to-Text, Audio Processing, AI-based Image Processing

UI/UX: Canva, Figma

EXPERIENCE

AI/ML Intern – Yohafly Technology Pvt. Limited March 2026 – Present
- Developed AI/ML solutions for biosensor-based hormone analysis, focusing on impedance data for automated health assessment.
- Built machine learning models for hormone-level prediction and PCOS risk analysis using biosensing data.

Full Stack Development Intern - Codveda Technologies Jul 2026 – Aug 2026
- Shortlisted and selected through resume screening for the Full Stack Development Internship.
- Contributed to the development of full-stack web applications using modern frontend and backend technologies.

AI Engineer Intern - Infosys Springboard Feb 2026 – Apr 2026
- Worked as an AI Intern, developing an AI-based system for podcast transcription and topic segmentation.
- Gained experience in audio processing, speech-to-text, NLP, and Streamlit application development.

Full Stack Developer Intern - Nexitence Technologies Jun 2025 – Jul 2025
- Developed an e-commerce application using the MERN stack with responsive frontend and backend functionality.
- Implemented RESTful APIs, backend services, responsive interfaces, and database integration.

AI Engineer Intern - DigiDara Technology Apr 2025 – Jul 2025
- Developed a student career application for resume analysis, mock tests, jobs, and internships.
- Integrated GenAI, LLMs, and RAG to provide personalised career recommendations and context-aware responses.

PROJECTS

Portable Centrifuge - Low-Cost Blood Diagnostics Device

Technology used: DS18B20 Sensor, A3144 Sensor, MPU6050 GY- 521 Module, ML model
- Developed an ultra-affordable portable centrifuge for blood separation and diagnostic applications in rural and resource-constrained healthcare settings.
- Integrated real-time RPM control, temperature and vibration monitoring for safe and precise centrifugation.
- Implemented AI-based image processing to detect plasma separation and automatically stop the centrifuge.

Career Mate - AI Career Guidance Assistant

Technologies used: Machine learning, LLM models, RAG, Streamlit

- Developed an AI-powered career assistant using GenAI, LLMs, NLP, and RAG to support students in career development.
- Implemented personalised recommendation algorithms to match student queries with relevant alumni profiles and career pathways.
- Built an interactive Streamlit application with personalised recommendations and context-based responses.

Automated Podcast Transcription & Topic Segmentation

Technology used: Python, Faster Whisper, NLP, Audio Processing, Streamlit

- Developed an AI-powered system to convert long-form podcast audio into searchable, topic-segmented transcripts.
- Applied speech-to-text and NLP techniques to identify topic boundaries, extract keywords, and generate summaries.
- Built an interactive Streamlit interface to search, browse, and navigate podcast content by topic.

ACHIEVEMENTS

- ₹15 Lakh MSME Innovation Funding - Funded for the Portable Centrifuge healthcare diagnostics project under the MSME innovation scheme.
- Secured a Finalist Award and ₹5,000 cash prize for proposing an innovative healthcare solution with entrepreneurial potential in the Yutry Hackathon.
- Selected for Pragati: Path to Future, Cohort 9 - Career Readiness & Professional Development programme conducted by Infosys Springboard, focusing on industry-readiness and soft skills.
- Recognised as a rank holder among the top-performing students for academic excellence at both college level and department level.

HACKATHONS

- **Yutry (Young Indians Trichy), IIM Trichy 2026:** Advanced to the Top 10 Finalist Teams for the next round of the competition.
- **Startup Singam 2026:** Recognised as a Student Entrepreneur and participated in the Student Homepreneur Edition.
- **Cognizant Technoverse 2026:** Reached the Hackathon Finalist stage through the competitive selection process.
- **Andhra Pradesh MedTech Zone (AMTZ) MedTech Hackathon 2026:** Presented an innovative healthcare solution proposal addressing critical healthcare challenges.
- **Swantech Hackathon 2025:** Secured 1st Prize for an innovative hackathon solution.
- **Smart India Hackathon 2025:** Advanced to the Grand Finale among participating teams from across the country.
- **Health Hackathon 2025, VIT Bhopal:** Gained experience in healthcare innovation and problem-solving through participation in a national-level hackathon.
- **IndustriAI Hackathon 2025, IIT Madras:** Advanced to the hackathon stage based on an innovative idea proposal.
- **S&T Hackathon 2024, India International Science Festival (IISF), IIT Guwahati:** Earned an opportunity to participate based on an innovative idea proposal.
- **Hack$Day 2024:** Selected in the hackathon organised by 0x.Day, gaining hands-on exposure to innovation and problem-solving.
- **IIT Madras Shaastra Techathon 2024:** Participated in the AI/ML Challenge of Shaastra Techathon 2024 at IIT Madras.
- **4+ Intra-College Hackathons:** Gained experience in problem-solving, teamwork, ideation, and innovation through multiple hackathon experiences.

PROFESSIONAL DEVELOPMENT

- JLPT N4 - Japanese Language Proficiency Test, N4 Level Certified (Score: 105/180).
- NAT N5 - Japanese Language NAT-TEST, N5 Level Certified (Score: 101/180).
- JLPT N3 - Currently preparing for JLPT N3.
