OBJECTIVE

B. Tech Artificial Intelligence and Data Science student seeking an entry-level opportunity to apply my skills in Java, Python, Machine Learning, and Data Analytics to solve real-world problems, develop practical solutions, and contribute to organizational growth.

EDUCATION

- **Bachelor of Technology - Artificial Intelligence and Data Science (Honors)**
  - Gnanamani college of technology, Namakkal – Ongoing (2023-2027) -- Current **CGPA:** 8.5
- **State Board (Higher Secondary) - Maths-Computer Science**
  - Government Boys Higher Secondary School – 2023 -- **Percentage**: 73.5 – **Cutoff**: 155.5

TECHNICAL SKILLS

- **Programming** : C, Java, Python, SQL **Database** : MySQL
- **Visualization** : Power BI, Matplotlib **Data & ML:** Scikit-learn, Data Analysis, Pandas, NumPy

INTERNSHIP

1. **AKS Hitech Smart Solutions (**1st July 2026 to 29th July 2026**)**
   Project Name: "Smart Face Attendance" -- Python | OpenCV | Face Recognition | MySQL
   - Developed a face-recognition-based attendance system to automate employee attendance using a webcam, enabling accurate and contactless attendance tracking.
2. **Bornfire Innovations Private Limited (**16th July 2025 to 25th July 2025**)**
   Project Name: "Eye Tracking Mouse Cursor" -- Python | OpenCV | MediaPipe | PyAutoGUI
   - Developed a hands-free mouse controller using eye and facial movements.

PROJECTS

1. **AI Chatbot Integration | React, JavaScript, HTML, CSS, Vite**
   Integrated an AI chatbot into my portfolio for interactive visitor assistance and instant profile information.
2. **Bus Ticket Reservation System | Java, MySQL**
   Bus Booking System with seat availability, passenger booking, and MySQL database integration using JDBC.
3. **Automated Car Sales & Recommendation System | Python, Flask, Pandas**
   Developed a car sales system that automates car filtering, recommendations, and purchase confirmation emails based on user requirements.
4. **Smart EV Fleet Monitoring & Analytics | Python, MySQL, Machine Learning — Team Project**
   Contributed to automated performance, revenue, maintenance, driver behaviour, distance prediction.

CERTIFICATIONS

- **IBM SkillsBuild:** Artificial Intelligence Fundamentals, Getting Started with Generative AI, Python
- **HackerRank:** Java certification & **ICT Academy:** Learnathon 2025 & **NCC:** A Certificate -- 30/09/2020
- **NPTEL:** Introduction to IOT – 85% & **Government of Tamil Nadu:** Typewriting – English (Senior)

SOFT SKILLS

- Problem Solving |Leadership (SCOT Leader) |Consistency (100 % Attendance in College) | Teamwork

AREA OF INTERESTS

- **Artificial Intelligence (AI), Java Developer, Python Developer, Web and Software Engineer, Data Analytics**

ACTIVITIES

Hackathon: "Exam Seat Arrangement System" at Mahendra College of Engineering – 26/09/2025
Paper Presentation: "**Blockchain Technology"** at Knowledge Institute of Technology – 27/02/2025
Workshop: "The Role of Angular in Industries" at Kongunadu College of Engineering and Technology – 19/10/2024
