# PRADEEP VENKATESAN

Namakkal, Tamil Nadu, India
+91 7010143057 | pradeepvenkatesan23@gmail.com

## Professional Summary

Aspiring Web Developer with hands-on practice building structured, responsive web pages using HTML, CSS, and foundational JavaScript (DOM manipulation, event handling). Also skilled in Python, SQL, and data analysis through internship and project work. Focused on writing clean, accessible code and eager to grow in an entry-level Web Developer role.

## Experience

**Data Science Internship** Nov 2024 – Dec 2024

Novitech R&D Pvt Ltd

- Performed data preprocessing, cleaning, and exploratory data analysis using Python.
- Used Pandas and NumPy to manipulate datasets and prepare data for analysis.
- Explored ML fundamentals and basic model-building workflows on structured datasets.
- Created visualizations with Matplotlib to identify patterns and communicate findings.

## Projects

**Institute Website** HTML5, CSS3, JavaScript

- Built a structured institute website; styled layout, typography, and spacing with CSS.
- Used Flexbox and selectors for alignment; added nav links, sections, and forms.
- Practiced DOM manipulation and event handling for interactive functionality.

**Login and Registration Page** HTML5, CSS3, JavaScript

- Designed a clean login interface with styled inputs, labels, and buttons.
- Implemented password visibility toggle and basic client-side form validation.

## Education

**Bachelor of Engineering (B.E) in Mechanical Engineering**

Adhiyamaan Engineering College

CGPA: 8.0

## Technical Skills

**HTML:** Semantic HTML5, Forms & Validation, Multimedia Embedding, Iframes

**CSS:** CSS3, Flexbox, Box Model, Selectors, Positioning, Responsive Design

**JavaScript:** Variables, Functions, Events, DOM Manipulation, Event Handling

**Tools:** VS Code, Git, GitHub, Microsoft Excel

## Certifications

- Mastering Generative & Agentic AI — Techobytes (2025)
- Data Analysis using Python — CloudyML (2025)
- SQL Basics — CloudyML (2025)
- AI Workflows & Demos — Novitech R&D (2024)
- Machine Learning — Novitech R&D (2024)
