Professional Summary

Highly motivated B.E. Computer Science and Engineering (Honours) graduate with a strong foundation in software development, data structures, and full-stack application building. Proven ability to design and deliver robust solutions through projects in AI, system design, and open-source development. Seeking an entry-level Software Engineer role to apply technical expertise, clean coding practices, and problem-solving skills to real-world engineering challenges.

Skills

- **Programming:** Python, JavaScript, TypeScript, SQL
- **AI & Data:** Machine Learning fundamentals, Generative AI tools, data analysis, model evaluation, AI-assisted development
- **Development:** Full-stack web applications, APIs, software development lifecycle, unit testing, debugging, documentation
- **Tools:** Git, GitHub Actions (CI/CD), Docker, React.js, Django, Streamlit
- **Core Strengths:** Problem-solving, clean code practices, collaboration, clear communication, ownership of features

Projects

GEOMMAND: AI-Powered Land Intelligence System github.com/.../gis-project

- Built a full-stack AI & GIS platform using Django, React.js, PostgreSQL/PostGIS, and Docker for land monitoring and encroachment detection.
- Selected among the **Top 100 Teams** in Niral Thiruvizha 3.0; owned architecture, implementation, testing, and delivery.

DevoraX: Open-Source Utility Toolkit GitHub | npmjs.com/package/@prakash1935/devorax

- Developed and published a type-safe TypeScript package with automated CI/CD pipelines for testing, building, and releases.
- Applied clean coding practices and continuous improvement from development through successful publication on NPM.

LoanGuard AI: Fairness Audit and Bias Mitigation Platform loan-model.streamlit.app

- Created a Python-based AI system with model evaluation, bias analysis, interactive Streamlit dashboard, and clear documentation.
- Owned the complete cycle from design and coding through testing and user-facing delivery.

Professional Experience

FintechGie — Web Developer Intern Feb 2025 – Jul 2025

- Built and maintained frontend and backend features for live applications, integrating APIs and following team coding standards.
- Participated in Git-based collaboration, code reviews, and structured development workflows focused on quality and delivery.

Saakra Agency — Web Developer Intern May 2025 – Jan 2026

- Delivered client projects from requirements through development, testing, and deployment while writing clean, maintainable code.
- Collaborated with stakeholders, refined solutions based on feedback, and maintained clear technical documentation.

Education

B.E. Computer Science and Engineering (Honours) 2022 – 2026
Sri Shanmugha College of Engineering and Technology, Salem CGPA: 8.03

Higher Secondary Education 2020 – 2022
Paramveer Matric Higher Secondary School, Dharmapuri Percentage: 72%

Publications

- **Book:** *"From Code to Innovation"* – Amazon KDP (ISBN: 978-93-344-6646-1).
- **Conference Paper:** "Automated Assignment Evaluation System: A Privacy-Preserving, Locally Hosted Solution for Assessment in Higher Education."

Achievements

- Selected among the **Top 100 Teams** in Naan Mudhalvan Niral Thiruvizha 3.0 (TNSDC, Govt. of Tamil Nadu) for GEOCOMMAND AI & GIS platform.

Certifications

- Artificial Intelligence Fundamentals – IBM | Claude Academy (AI Fluency, Capabilities, Claude 101) – Anthropic
- Agents and Workflows – ChatGPT Academy | Designing the Web: Frontend Development – MarcelloTech
- Designing User Interfaces and Experiences (UI/UX) – IBM | Android Developer Virtual Internship – Google & AICTE
- Zscaler Zero Trust Cloud Security – Zscaler & EduSkills
