SOFT SKILLS

- Problem Solving
- Quick Learning
- Time Management
- Teamwork

TECH SKILLS

- Java
- Embedded System
- PCB Design
- Internet of Things(IOT)

LANGUAGE

- English
- Japanese(N4)

HOBBIES

- Gardening
- Drawing

OBJECTIVE

Motivated and enthusiastic Electronics and Communication Engineering student with knowledge of programming languages and embedded systems, aiming to utilize my technical skills, explore new technologies, and contribute effectively to the growth of the organization.

EDUCATION

KONGUNADU COLLEGE OF ENGINEERING AND TECHNOLOGY (2023–2027)

B.E. Electronics and Communication Engineering

CPGA-8.91

GOVERNMENT HIGHER SECONDARY SCHOOL

Higher Secondary (HSC)-83%	2023
SSLC-100%	2021

PROJECTS

EMBEDDED WOMEN SAFETY DEVICE

- Developed an embedded safety device to enhance women safety. Integrated sensors (GPS and accelerometer) to detect sudden falls or threats.
- Sends instant alerts with real-time location via GSM module. Designed the circuit layout and implemented the hardware using embedded components on PCB.

A GNN BASED INTELLIGENT SYSTEM FOR PULMONARY DISEASE DIAGNOSIS

- Developed an AI-based system to analyze chest X-ray images and detect diseases.Used a hybrid CNN-GNN model to learn relationships between image regions (nodes).
- Superpixel segmentation is used to convert images into graph structures for better feature representation.

INTERNSHIP

GRSOFT TECH - JAVA INTERNSHIP

- Trained in Java development with a focus on coding and problem-solving.Gained hands-on experience in Java programming and application development.
- Worked on mini projects and improved debugging skills.Collaborated with the team and followed best coding standards.
