PROFILE SUMMARY

- Demonstrated proficiency in SQL, PL/SQL, and database management, showcasing a comprehensive skill set in database development.
- Extensive experience using SQL, Oracle, MySQL, and SQL Server to design, develop, and optimize databases, emphasizing a strong foundation in data management.
- Proven ability to enhance system performance and data integrity through efficient query optimization and database design.
- Solid expertise in data transformation and ETL processes using DATASTAGE tools, including Sequential, Aggregator, Transformer, Lookup, Join, Merge, Funnel, and Filter stages.
- Successful track record in writing complex SQL queries and stored procedures, ensuring robust and efficient data operations.
- Proficient in version control using Git and adept at project management using JIRA, facilitating efficient collaboration and streamlined issue tracking.
- Security-conscious approach, with experience in implementing database security measures and ensuring data protection and compliance.
- Competence in integrating database systems with web applications, enabling seamless communication between front-end and back-end systems.

ABOUT ME

SQL Developer with 1.11 years of experience in designing, developing, and optimizing database solutions. Proficient in SQL, database management, and performance tuning. Skilled in writing complex queries, stored procedures, and ensuring data integrity. Eager to tackle challenging roles and contribute expertise to develop robust, scalable, and efficient database systems that support innovative software solutions and drive excellence in data management.

TECHNICAL SKILLS

- IBM INFOSPHERE DATASTAGE
- SQL
- PL/SQL
- BASIC OF PYTHON
- GIT

TOOLS USED

- MYSQL
- ORACLE
- POWER BI
- GIT
- JIRA

PROJECT

- *I am a Software Engineer with 1.11 years of experience.*
- *Worked on IBM IGC and IBM IA and contributed to data governance initiatives*

WORK EXPERIANCE

HCL Technologies SEP 2022 - JULY 2024

- Gained hands-on experience in various stages of the DATASTAGE tool, including Sequential, Aggregator, Transformer, Lookup, Join, Merge, Funnel, and Filter stages.
- Developed and optimized SQL and PL/SQL queries for efficient data retrieval and manipulation.
- Collaborated with team members to design, implement, and test database solutions, ensuring data integrity and performance.
- Assisted in the development and maintenance of database documentation and best practices.
- Participated in code reviews and provided constructive feedback to improve code quality and performance.
- Worked on troubleshooting and resolving database-related issues, enhancing overall system reliability.

EDUCATION

BE
Sona college of Technology
Salem
2018 - 2022
CGPA - 8.93

LANGUAGE

- Tamil
- English

PERSONAL DETAILS

Name : Rasigapriya A
DOB : 22/03/2000
Fathers name : Asokan D
Marital status : Single

- *gained practical knowledge in data management. Received training on SQLPL/SQL and IBM DataStage.*
- *Involved in creating Rulesets from scratch in IBM IA based on data quality plan provided by customer.*
- *Written complex regex code for DD to create RS and RSD.*
- *Worked to create IMR for breaching Rulesets and created the scorecard generation.*
- *Willing to learn and develop new skills.*
- *Experience in bringing productivity and efficiency within the team.*

- Previous Experience:

- Project: CFO IGC
- Client: USAA
- Duration: March 2023-January 2024
- Project Concept Definition:
- *Conducted thorough data profiling and analysis using IBM IA to ensure data quality and accuracy*
- *Implemented and maintained metadata management processes in IBM IGC, ensuring a standardized approach to data assets.*
- *Implemented Report certification work (RC2 &RC4) and report lineage work in IBM IGC*

- Experience Highlights

- *Experience in IBM IGC and IBM IA*
- *Experience in bringing productivity and efficiency within the team by tracking & documenting the end to end process/tasks involved*
