2027

Roshini S

Salem, Tamil Nadu | +91 9342666413 | roshinir989@gmail.com | linkedin.com/in/roshini-shaffi | github.com/Roshini1922

PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Sc. Computer Science graduate specializing in Artificial Intelligence and Data Science. Skilled in Python, Java basics, SQL basics, and data analytics tools, with a strong passion for exploring emerging technologies and solving real-world problems. Eager to apply technical knowledge, grow professionally, and contribute effectively in a dynamic work environment.

EDUCATION

B.Sc. Computer Science (Artificial Intelligence & Data Science) **2022 - 2026**
Shri Sakthikailash Women's College, Salem, Tamil Nadu | CGPA: 8.2

Higher Secondary Education **2022 - 2023**
Mount Mary Matriculation Higher Secondary School, Salem, Tamil Nadu | CGPA: 7.2

INTERNSHIPS

Data Analytics Intern, Immaculate Technology **May 2025**
- Designed informative visualizations with Matplotlib to present actionable trends and patterns to stakeholders.
- Gained hands-on experience in Python, NumPy, Pandas, and Matplotlib for data cleaning, manipulation, and analysis.
- Worked with real-world datasets to explore data, summarize key findings, and communicate insights clearly.
- Strengthened skills in exploratory data analysis (EDA) and data-driven problem solving.

Python Intern, LM Technology **Jan 2024**
- Applied core Python concepts and automated data preprocessing workflows for practical industry datasets.
- Developed and executed Python programs to strengthen logical thinking and programming skills.
- Practiced writing clean, structured, and reusable code using functions, loops, and data structures.

PROJECTS

Sentiment Analysis on Product Reviews
- Developed a Python-based machine learning model to classify Amazon customer reviews as positive or negative.
- Applied NLP text preprocessing and TF-IDF feature extraction to convert review text into numerical features.
- Trained a Logistic Regression classifier to analyze customer sentiment and generate meaningful insights.

COVID-19 Analytics Trends in India
- Analyzed COVID-19 data using Python and Pandas to identify trends in cases, recoveries, and deaths.
- Cleaned and organized the dataset to enable accurate state-wise and time-based analysis.
- Created visualizations with Matplotlib and Seaborn to present state-wise insights clearly.

SKILLS

- **Programming:** Python, HTML, Java (basics), SQL (basics)
- **Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Machine Learning / NLP:** Logistic Regression, TF-IDF, Sentiment Analysis
- **Tools:** Visual Studio Code, MS Excel, Linux
- **Soft Skills:** Problem Solving, Time Management, Communication, Adaptability

CERTIFICATIONS

- Fundamentals of Generative AI - GUVI
- Object-Oriented Programming using Python - Infosys Springboard
- Python for Data Science - NPTEL
- Data Analytics Master - Novi Tech
- District and State Certificate of Poster Presentation - YASSC

ACHIEVEMENTS

- Presented a poster on "Robotics in Space Science" at the Youth Astronomy and Space Science Congress.

LANGUAGES

English, Tamil, Hindi, Urdu
