EDUCATION

Knowledge Institute of Technology, Salem **2023 - 2027**
B.Tech (Computer science and business systems**)** (8.1 CGPA)

EXPERIENCE

Nxtwave Disruptive Technologies

Industry-Ready Certification in **Full-Stack Development**
• Building scalable web applications with React, Node.js, Express, and SQLite.
• Developed industry-grade projects: E-Commerce platform, CRUD Applications.
• Hands-on experience in REST APIs, JWT authentication, state management, and React Hooks.

SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js
Backend: Express.js, Node.js
Databases: SQLite**,** MongoDB
Other skills: REST API, JWT Authentication
Programming Languages: Python, Java
Soft skills: Communication, Problem-Solving, Team player, Leadership

PROJECTS

KIOT alumni website (View Project)

Alumnx is a web-based platform designed to **connect students and alumni**, enabling seamless **interaction and networking.** The application was built using **React.js** and styled with **Tailwind CSS**, leveraging **AI-**Focused on **a responsive design**, intuitive navigation, and scalable component architecture.
Technologies: React.js, Tailwind CSS, AI tools (Lovable), HTML, CSS, JavaScript

COURSE SELLING WEB APP (View code)

Developed a scalable **backend system** for a course-selling platform using **RESTful APIs** to handle user **authentication**, **course management**, and **purchase workflows**. Implemented secure **login** and **authorisation** mechanisms, along with **efficient database operations** for managing users and courses. Designed modular and reusable backend architecture to ensure maintainability and performance.
Technologies: Node.js, Express.js, MongoDB, JavaScript

Employee Management Systems (View Code)

Developed a **backend system** for an **Employee Management application** using **RESTful APIs** to handle employee data, including **adding, updating, retrieving, and deleting records**. Implemented efficient **database operations** and structured routing to ensure smooth **data management** and **scalability**. Focused on building a modular and maintainable backend architecture.
Technologies: Node.js, Express.js, SQLite, JavaScript

CERTIFICATES (View Certificates)

Frontend – Building responsive and interactive web pages using **React.js**
Backend – Developing server-side logic using **Node.js** and **Database** connectivity using **SQL**
Database – Designing and developing the database for the web applications

ACHIEVEMENTS

Secured **3rd place in the Idea Lab** for developing a **reverse camera solution for heavy vehicles.**
Demonstrated **consistent upskilling** for the past three years of learning on the **NxtWave platform**.
Active participation in **workshops** and **podcasts** for continuous skill development on various platforms.
