PROFESSIONAL SUMMARY

System Administrator with 3+ years of experience in Windows Server administration, Active Directory management, Microsoft 365, networking, and IT infrastructure support. Previously worked as an XML Operator for over 4 years (2019-2023), specializing in XML development, e-publishing, document transformation, and quality assurance for academic and journal publishing. Certified Field Technician in Networking and Storage (QP: ELE/Q4606, NSQF Level-4). Also completed a Data Analytics Professional Certification covering Python, SQL, Power BI, and Excel. Committed to delivering reliable IT support, maintaining high system availability, and improving operational efficiency.

CORE SKILLS

- Windows Server administration and Active Directory user/account management
- Microsoft 365 administration, email clients, and VPN configuration and troubleshooting
- Network connectivity troubleshooting, including Wi-Fi and IP conflict resolution
- Desktop, laptop, printer, and peripheral device installation, configuration, and maintenance
- IT service desk and ticketing systems: incident logging, response, and escalation to L2/L3 support
- XML encoding, tagging, quality control, and document conversion (UltraEdit, Epsilon)
- Data analytics tools: Python, Pandas, NumPy, SQL, Power BI, and Excel (PivotTables, Power Query, VLOOKUP, INDEX-MATCH)
- Data visualization using Matplotlib and Seaborn; basic statistics including mean, median, correlation, and hypothesis testing

WORK EXPERIENCE

System Administrator April 2023 - Present
Moss Publishing Services, Erode, India

- Perform initial incident response and ticket management, receiving, logging, and responding to incoming IT support requests through phone, email, and ticketing system.
- Escalate unresolved or complex issues to Level 2 or Level 3 support teams for further resolution.
- Provide first-level technical support for Microsoft Office applications, email clients, VPN connections, and web browsers.
- Assist end users with basic network connectivity issues, including Wi-Fi connection failures and IP address conflicts.
- Install, configure, and maintain desktops, laptops, printers, and other peripheral devices across the organization.
- Create, modify, and disable user accounts in Active Directory, and manage user permissions and access levels.
- Reset passwords, install and troubleshoot common software applications, and maintain accurate records of issues and resolutions in the ticketing system.

XML Operator January 2019 - March 2023
Moss Publishing Services, Erode, India

- Worked as an e-publishing specialist in XML for Multi, Mono, Gencare, OB2 journals, and Scopus titles.
- Streamlined document transformations and web sharing processes using XML commands.
- Converted text data into DAT formats using UltraEdit and fixed errors and logs using Epsilon tools.
- Handled XML encoding, conversions, and documentation, applying QC checklists to ensure accurate tagging.
- Troubleshot code issues, debugged errors, and converted entities from BD operations while upholding high-quality standards for all XML projects.

Jr. Systems Administrator January 2017 - December 2018
G7 CR Technologies India Pvt Ltd, Bangalore, India

- Handled server and network operations at an IT firm specializing in infrastructure and support, building skills in server and network management and end-user assistance.
- Resolved server and network issues and improved system performance for over 50 users.
- Installed, configured, and maintained hardware and software, reducing system downtime by 30 percent through regular updates.
- Provided remote and on-site user support, contributing to improved overall user satisfaction.

EDUCATION

B.Tech in Information Technology August 2012 - April 2016
Velalar College of Engineering and Technology, Thindal, Erode

CERTIFICATIONS
