## CAREER OBJECTIVE

Motivated B.Tech student in Artificial Intelligence and Data Science with hands-on exposure to Python, machine learning and data analytics through an internship and applied projects. Seeking an entry-level role where I can apply my analytical thinking and problem-solving skills to real-world data challenges, while continuing to learn new technologies and contribute to team success.

## EDUCATION

**Hindusthan College of Technology** — Salem, TN
*B.Tech – Artificial Intelligence and Data Science* — *Expected 2027*

**Government Girls Higher Secondary School** — Jalakandapuram
*Class XII – 74%* | *Class X – 2021*

## INTERNSHIPS

**Machine Learning Intern** — 45 Days
*Apex Seekers EdTech Pvt. Ltd., Chennai* — *Offline*

- Gaining hands-on exposure to machine learning concepts, workflows and model development.
- Preprocessing and analyzing datasets using Python to prepare data for model training.
- Applying fundamental ML algorithms to practical tasks to strengthen problem-solving skills.

## PROJECTS

**Smart Job Matching** | *Python, NLP, Machine Learning, Scikit-learn* — 2025

- Developed an ML-based system that matches candidate profiles to relevant jobs by skills and experience.
- Applied text preprocessing, TF-IDF and similarity scoring to rank the best-fit jobs for each candidate.

**Customer Churn Prediction** | *Python, Pandas, Scikit-learn, Matplotlib* — 2025

- Built classification models to predict customer churn from cleaned, feature-engineered data.
- Evaluated models using accuracy, precision and recall, and visualized key churn drivers with Matplotlib.

**Student Performance Prediction** | *Python, Pandas, Scikit-learn, Matplotlib* — 2025

- Developed a regression model to predict student marks from attendance, study habits and past scores.
- Compared Linear Regression and Random Forest models using $R^2$ score and error metrics.

## TECHNICAL SKILLS

**Languages & Tools**: Python, Java, C, SQL (Basic), Git, GitHub, Google Colab
**Data & Analytics**: Data Analytics, Pandas, NumPy, Matplotlib, Tableau (Basic)
**Machine Learning**: ML Fundamentals, Data Science Fundamentals, Scikit-learn, NLP
**CRM & Web**: Salesforce (Basic), HTML, CSS (Basic)
**Core Strengths**: Data Structures, Problem Solving, Analytical Thinking
**Languages Known**: Tamil | English | Kannada

## TRAINING & CERTIFICATIONS

**Artificial Intelligence Training** – Novitech
**Full Stack Development Masterclass** – Novitech
**PPT Presentation** – Excel College of Technology
**UI/UX Design** – Coursera
