ABOUT ME

- **Final-Year Biomedical Engineering student with a CGPA of 8.17.**
- **Passionate about Medical Devices, AI in Healthcare, Embedded Systems, and Biomedical Innovation.**
- **Skilled in MATLAB, Arduino, IoT, basic Signal Processing, and Medical Device Fundamentals.**
- **Certified through MATLAB, Medtronic, and GUVI programs, with hands-on experience in biomedical equipment and healthcare projects.**
- **Strong analytical, leadership, teamwork, and problem-solving skills, eager to contribute to innovative healthcare technologies.**

EDUCATION

Annapoorana Engineering College
Expected Graduation : 2027

Bachelor of Biomedical Engineering
Current CGPA : 8.17

BIO OPERATIONS

- **Mini Project - Smart Blood Connect**
  Automated the communication process by sending AI-triggered notifications and interactive voice calls to alert donors instantly during critical medical emergencies.
- **Internship - Neuraai Solutions**
  Developed and prototyped innovative embedded IoT solutions by programming Arduino UNO microcontrollers, integrating hardware with sensors, and optimizing systems for practical, real-world product applications.
- **Hands On Training - KAV Biomedical Equipment**
  Completed hands-on technical training, mastering calibration and troubleshooting for patient monitors, ECG machines, Infusion pump and defibrillators.
- **Workshop - KSR Institute**
  Wearable Health Monitoring System
- **Workshop - Nandha Engineering College**
  Rudiments of Biomedical Equipment

MED - TECH SKILLS

- Embedded Systems - **Arduino**
- Biomedical Applications - **Medical Device Basics**
- Project Development **- Innovative AI Source Development**
- Software & Analysis - **Data Analysis (Basic), Signal Processing (Basic)**

CAREER SKILLS

- Leadership
- Analytics
- Teamwork
- Adaptability
- Communication
- Problem Solving
- Inovation
- Collaboration

AREA OF INTEREST

- Medical Devices
- Prosthetic & Rehabilitation
- Biomedical Instrumentation
