M. DHINESH KUMAR

AZURE DATA ENGINEER | DATA ANALYST | SQL

8610634499 | dhinesh.jude@gmail.com | Chennai, India

OBJECTIVE

Results-driven Data Analyst with 10+ years of experience in technical support and data-driven problem solving, seeking to leverage strong analytical, reporting, SQL, and Azure Data Engineering expertise to contribute to data-driven decision-making and business growth. Adept at transforming complex datasets into actionable insights, optimizing data processes, and supporting strategic initiatives through Python, Azure data services, SQL, Snowflake, and database management.

PROFESSIONAL EXPERIENCE

Azure Data Engineer

Tata Consultancy Services | 2022 – Present | Chennai, India

Azure Data Engineering – enterprise cloud data integration, ETL, data pipelines, and cloud data engineering solutions.

- Developed and maintained scalable data pipelines using Azure Data Factory (ADF) for data ingestion, transformation, orchestration, scheduling, and monitoring.
- Worked with Azure Data Lake Storage Gen2 (ADLS Gen2) for storing and organizing structured and semi-structured enterprise data.
- Developed data transformation and processing workflows using Azure Databricks and PySpark for cleansing, aggregation, and large-volume data processing.
- Worked with Azure Synapse Analytics and Azure SQL Database to support analytical workloads, data integration, SQL transformations, and data processing requirements.
- Built Python-based automation scripts and cloud data workflows, increasing report generation efficiency by 40%.
- Designed and supported ETL pipelines using Azure services, SQL, Python, and Snowflake to deliver reliable datasets.
- Optimized SQL queries and Snowflake data models, improving query response times by 50%.
- Implemented data validation, reconciliation, and quality checks, contributing to a 20% improvement in data accuracy.
- Collaborated with engineering and business teams to gather data

CORE SKILLS

- Azure Data Factory (ADF)
- Azure Databricks
- PySpark
- Azure Synapse Analytics
- Azure Data Lake Storage Gen2
- Azure SQL Database
- Python
- SQL
- Snowflake
- ETL & Data Pipelines
- Data Integration
- Data Transformation
- Tableau
- Excel & VBA
- Data Quality & Validation
- Data Management

CERTIFICATION

- Microsoft Azure Developer Associate – AZ-204
  Azure application development, deployment, and cloud service integration.

EDUCATION

- M.Sc. Computer Science & Technology
- University of Madras
  2004 – 2010 | Chennai, India

STRENGTHS

- Agile collaboration and stakeholder management
- Project planning and risk tracking

requirements, troubleshoot pipeline issues, and deliver reliable data engineering solutions.
- Supported monitoring and troubleshooting of data pipelines, scheduled workflows, data loads, and production data issues.
- Conducted data analysis to support business strategy and operational improvements, contributing to a 15% increase in operational efficiency.

Junior Data Analyst

Tata Consultancy Services | 2019 – 2022 | Chennai, India | Bank of America

- Assisted in analysis of server logs and application performance reports.
- Created visualizations for internal IT metrics in Tableau and Excel.
- Supported service request data processing and reporting automation.

Data Analyst

Aracadia Consultancy Service | 2015 – 2019 | Chennai, India | Medical Data Coding

- Built and maintained SQL reports for DevOps, ticket resolution, and infrastructure uptime metrics.
- Designed and automated Excel dashboards for internal IT helpdesk monitoring, reducing reporting effort by 70%.
- Led internal data audits for application SLAs and performed root cause analysis on incident trends.

- Data quality and reporting accuracy
- Root cause analysis and problem solving
- Cross-functional team collaboration

RECOGNIZE & REWARDS

- Innovation Award Winner in corporate AI
- Hackathon for automation tools in data entry and incident management, improving accuracy and reducing manual effort.

INTERESTS

- Continuous Learning
- Continually enhancing data analysis and data engineering skills through courses, workshops, and self-study.

LANGUAGES

- English — Native
- Tamil — Advanced
