PROFESSIONAL SUMMARY

AWS re/Start with hands-on experience in AWS services, Python, Linux fundamentals, Git/GitHub, Docker fundamentals and cloud-based application. Experienced in working with AWS EC2, S3, Lambda, IAM, CloudWatch, SQS, and DynamoDB, with a strong foundation in networking, monitoring, security, troubleshooting with practical experience building and deploying Python-based applications. Seeking an entry-level DevOps, Cloud Engineer, AWS Cloud Support, or Cloud Operations role.

EXPERIENCE

AI/ML Intern | Innovexies **May 2026 – Aug 2026 | Remote**

- Developed Python-based machine learning and data analytics solutions for the 5+ projects using Pandas, Scikit-learn and TensorFlow for real-world datasets.
- Designed data preprocessing, model training, predictive analytics, and visualization workflows for financial analytics, stock forecasting, and real-estate prediction use cases predicating the better accuracy of 90%.
- Collaborated on AI-driven applications by debugging data pipelines and optimizing models for improved accuracy.

Video Analyst | Data Corp Traffic Pvt. Ltd **May 2025 – Apr 2026 | Salem, Tamil Nadu**

- Analyzed and classified vehicle data with 95% accuracy using rule-based categorization and systematic validation.
- Processed and validated 500+ vehicle records daily, improving dataset reliability by 15% through debugging and quality checks.
- Organized structured vehicle records and generated Excel-based dashboards for reporting and data analysis.

Web Developer | Tidy Digital Solutions **Aug 2024 – Feb 2025 | Salem, Tamil Nadu**

- Developed 5+ responsive websites using HTML, CSS, Bootstrap, WordPress, and Elementor with browser compatibility.
- Customized themes and frontend components to deliver mobile-responsive and SEO-friendly for ranking over top 10 and web experiences.
- Optimized website performance, improving page-load speed by 35% and user engagement by 15% while collaborating with team members to troubleshoot frontend issues and deliver UI improvements.

PROJECTS

PromptStudio | **Python | FastAPI | React | Supabase Auth/PostgreSQL | Vercel | Render** **Live**

- Engineered and deployed an AI powered prompt optimization platform that analyzes prompts and identifies areas for improvement, generating structured prompts for improved AI.
- Created Prompt Optimizer and Prompt Scorer features with AI-powered rewriting, quality scoring, and actionable feedback across clarity, specificity, context, structure, constraints, and output format.
- Architected 20+ APIs using FastAPI for prompt CRUD operations, authentication, favorites, sharing, version history, optimization, and scoring, with deployment across Vercel and Render.

Wholesale Distribution Management | **Django REST Framework | PostgreSQL | JWT | REST APIs** **GitHub**

- Architected a multi-tenant SaaS platform for wholesale distribution management using Django REST Framework and PostgreSQL, supporting 3 user roles: Admin, Agent, and Customer. Configured JWT authentication and role-based access control to manage permissions across Admin, Agent, and Customer modules.
- Implement RESTful APIs for product management, order processing, payment collection, and transaction tracking, while streamlining product catalog, order management, and payment-balance workflows to replace manual phone-based ordering. .

PhonePe Transaction Insights | **Python | PostgreSQL | SQL | Streamlit | Plotly | SQLAlchemy** **GitHub**

- Prepared an interactive analytics dashboard for digital payment transactions for the dataset of more that 1000+ data collections using Python, SQL, PostgreSQL, Streamlit, and Plotly. Analyzed ETL workflows and SQL-based analysis to examine transaction trends, user growth, and state-wise payment insights.
- Visualized digital payment adoption patterns through interactive dashboards 3+ plot and data-driven reporting.

TECHNICAL SKILLS

Languages : Python, SQL, Bash
Backend/DB : Django, FastAPI, PostgreSQL, SQLite,
Devops : Docker fundamentals, Git/Github, Linux fundamentals
Cloud : AWS (VPC, EC2, S3, Lambda, IAM, CloudWatch)
Tools : Git, GitHub, Postman, VS Code, swagger UI

EDUCATION

Annapoorana Engineering College | Salem, Tamilnadu | **BE ECE |** **CGPA:** 8.03/10 **Aug 2020 – May 2024**
