PROFESSIONAL SUMMARY

Recent B.Tech Information Technology graduate with strong foundations in Java, Object-Oriented Programming, SQL, Data Structures & Algorithms, and Software Development principles. Hands-on experience developing web applications and database-driven projects through internships and academic work. Strong problem-solving skills with a passion for learning new technologies and building software solutions.

SKILLS

Programming Languages :	Java, JavaScript, SQL
Core Computer Science :	Object-Oriented Programming (OOP), Data Structures & Algorithms
Backend Development :	Core Java
Web Development :	HTML5, CSS3, JavaScript
Databases Technologies :	MySQL
Tools & Platforms :	Git, GitHub, VS Code, Eclipse IDE

WORK EXPERIENCES

Web Development Intern | Internship — Oct 2024 - Nov 2024

Nitroware Technology — *Coimbatore*

- Developed responsive web applications using HTML, CSS, and JavaScript ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated with team members to implement user interface enhancements and improve website functionality.
- Optimized web pages for better usability, performance, and accessibility.
- Participated in debugging, testing, and troubleshooting application issues.
- Followed software development best practices and version control workflows.

Technologies / Skills Used : *HTML, CSS, JavaScript*

EDUCATIONS

Mahendra Engineering College | Namakkal, Tamil Nadu — Sep 2021 - May 2025

B.Tech - Information Technology — *CGPA : 7.99/10*

Nalandas Higher Secondary School | Namakkal, Tamil Nadu — 2020 - 2021

HSC — *CGPA : 84%*

New Oxford Matriculation School | Namakkal, Tamil Nadu — 2018 - 2019

SSLC — *CGPA : 80%*

CERTIFICATIONS

NPTEL – Software Testing

Coursera – Software Testing

CodeCasa – Web Development & Designing

Devtown – Front-End Development

PROJECTS

Student Management System — Jun 2025 - Aug 2025

Developer

- Developed a full-stack Student Management System using Java, JDBC, and MySQL to manage student records efficiently.
- Implemented CRUD operations and SQL queries for secure data storage and retrieval.
- Applied OOP concepts including inheritance, encapsulation, and abstraction for modular design.
- Designed a relational database schema and workflows for efficient student information management.
- Utilized Git and GitHub for version control and collaborative project management..

Technologies / Tools Used : *Java, MySQL, JDBC*

Crop Pest Identification — Feb 2025 - Apr 2025

Developer

- Developed an AI-based image processing application to identify crop pests and plant diseases from agricultural images.
- Applied image enhancement and preprocessing techniques to improve classification accuracy.
- Designed an efficient workflow for analyzing image data and supporting early disease detection.
- Improved detection reliability through image quality optimization techniques.

Technologies / Tools Used : *Python, OpenCV*

LANGUAGES

English

Tamil

- Problem Solving
- Teamwork & Collaboration
- Communication Skills
- Adaptability
- Logical Thinking
- Leadership
- Time Management
- Critical Thinking
