NITHYA R

AI-Driven Data Analyst | Machine Learning & Business Intelligence

Salem, Tamil Nadu | 9894367407 | rnithyaruttick@gmail.com

PROFESSIONAL SUMMARY

Results-driven Data Analyst with internship experience and 6+ end-to-end projects spanning SQL, Python, Excel, Power BI, and Machine Learning/AI. Skilled in building predictive models, automating data pipelines, and designing AI-assisted analytics solutions that turn raw data into clear business decisions. Seeking a full-time Data Analyst role to apply AI and analytics skills to drive measurable business impact.

INTERNSHIP EXPERIENCE

Data Analyst Intern — Techvolt Software Pvt. Ltd. *Jan 2026 – Apr 2026 | On-site*

- Collected, cleaned, and processed 10,000+ records using Python (Pandas, NumPy), ensuring data accuracy for downstream AI/ML models.
- Performed EDA and applied ML techniques to identify trends and outliers, surfacing 5+ actionable business insights.
- Built and maintained 3+ interactive Power BI dashboards to visualize KPIs for stakeholder reporting across departments.
- Wrote optimized SQL (MySQL) queries to extract and manipulate data, reducing query time by ~30%.

PROJECTS

Yarn Type Prediction using ML & Deep Learning — Final Year Project *Jan – Apr 2026*

Stack: Python, Pandas, Scikit-learn, TensorFlow/Keras

- Implemented a multi-layer Convolutional Neural Network (CNN) and an Artificial Neural Network (ANN) architecture alongside Random Forest and SVM classifiers to predict yarn quality/type from textile process parameters.
- Applied feature engineering and hyperparameter tuning to boost model accuracy, benchmarking deep learning architectures against traditional ML classifiers for reliable classification performance.

E-Commerce Customer & Product Intelligence (RFM Analysis) *Mar – Apr 2026*

Stack: SQL, Power BI, Python

- Engineered an RFM-based customer segmentation model using SQL and Power BI, uncovering cross-sell opportunities and delivering an executive dashboard for revenue and inventory decisions.

Excel – Financial Performance & Budget Variance *Apr – May 2026*

Stack: MS Excel (Pivot Tables, Formulas, Conditional Formatting)

- Engineered a dynamic budget vs. actual variance tracking workflow across departments using pivot tables and conditional formatting, highlighting overspend areas for faster financial reporting.

SQL – Customer Churn & Revenue Analytics *May – Jun 2026*

Stack: MySQL (Joins, Window Functions, CTEs)

- Developed SQL-driven churn analytics across multiple relational tables, identifying key customer segments driving revenue loss and informing targeted retention priorities.

Power BI – Executive Sales & Profitability Intelligence *Jun – Jul 2026*

Stack: Power BI, DAX

- Architected an executive BI dashboard with DAX measures to track sales, profitability, and regional performance for leadership reporting.

TECHNICAL SKILLS

AI & Machine Learning: Predictive Modeling, Regression & Classification, Model Evaluation, Deep Learning (ANN/CNN), TensorFlow/Keras basics, Feature Engineering

SQL: MySQL — Joins, Subqueries, Aggregations, Window Functions, CTEs, Query Optimization

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)

BI & Spreadsheet Tools: Power BI (DAX, Data Modeling), MS Excel (Pivot Tables, VLOOKUP/XLOOKUP, Data Validation)

Analytics: Data Analysis, EDA, Data Cleaning, Data Visualization

Statistics: Descriptive Statistics, Probability, Correlation, Normal Distribution, Outlier Detection (IQR, Z-score)

EDUCATION

B.E. Computer Science Engineering — Mahendra Institute of Engineering and Technology, Namakkal

Anna University | CGPA: 8.2 / 10 | 2022 – 2026

HSC — Government Girls Higher Secondary School, Salem

Score: 80% | 2020 – 2022

CERTIFICATIONS

- Data Analytics Internship Completion Certificate — Techvolt Software Pvt. Ltd. (Apr 2026)

SOFT SKILLS & LANGUAGES

Analytical Thinking, Problem Solving, Communication, Time Management | Tamil (Native), English (Professional Proficiency)
