Objective

Motivated Biomedical Engineering fresher seeking a Sales, Service and Application Engineer role to apply my basic technical knowledge and communication skills, eager to learn and improve my knowledge by gaining practical experience under proper guidance and committed to contributing effectively to the organization while growing professionally.

Education

- **Nandha Engineering College** 2026
  B.E - Biomedical Engineering
  CGPA 6.64
- **Govt. Hr. Sec. School. Savuriyur** 2021
  HSC
  76%
- **Govt. Hr. Sec. School. Savuriyur** 2019
  SSLC
  67%

Skills

- Team Working
- Decision Making
- Critical Thinking
- Communication

Projects

- **wound healing**
  Developed a smart wound-healing system using sensors to detect conditions and trigger automated localized treatment.
- **Vacuum cleaner based on ultrasound**
  Uses an ultrasonic sensor for obstacle detection and efficient path-based cleaning.
- **Smart osteoarthritis Monitoring and Adaptive Therapy System**
  Developed an ESP32-based smart wearable for IoT knee monitoring with automatic therapy activation (cooling/TENS).

Internships

- **VIMS Super Speciality Hospital - Salem**
  Starting a 30-day internship at VIMS Super Specialty Hospital to gain hands on experience in healthcare technology, apply technical skills and contribute to innovative patient care solutions while learning from medical professionals in a dynamic and advanced clinical environment.
- **KAV Biomedical - Madurai**
  Completed 10-day hands-on training at Kav Biomedicals, gaining practical experience in handling and working with 15+ biomedical equipment.
