ELECTRICAL
ENGINEER

6383375159 | Mettur, Salem, TN - 636452 | slogesh650@gmail.com

PROFESSIONAL SUMMARY

Electrical Engineer with 4+ years of experience in electrical maintenance, testing and commissioning, troubleshooting, and calibration of HT/LT electrical systems and equipment. Experienced in substation equipment testing, electrical fault diagnosis, preventive maintenance, and technical documentation. Seeking an opportunity in an industrial or MNC environment to apply strong technical knowledge and contribute to safe and reliable electrical operations.

EDUCATION

2018 - 2022
Anna University

Bachelor of Engineering (B.E.)EEE
B.E. in Electrical and Electronics Engineering from The Kavery College Engineering with a CGPA of 7.7.

PROFESSIONAL EXPERIENCE

Global EPC India Pvt. Ltd., Chennai.

2022 – 2026
March

Senior Calibration Engineer (Team Lead)

- Electrical Engineer **HT/LT Substation** Testing & Calibration.
- Performed electrical testing and calibration activities for **11kV/ 33kV/ 110 kV and 220 kV substation equipment.**
- Experienced in calibration and testing of **CT/PT transformers, HT/LT energy meters, and multifunction meters.**
- I have performed electrical maintenance, troubleshooting, and preventive maintenance of motors, panels, and transformers.
- I have carried out field testing, commissioning, and on-site calibration while following **IS/IEC standards**.
- Skilled in identifying and troubleshooting electrical faults using testing instruments such as multimeters and clamp meters.
- I always follow electrical safety procedures, work well in a team, and complete tasks efficiently.
- Prepared and maintained NABL **audit documentation, calibration records, and technical work files** in accordance with applicable quality standards.
- Supported NABL audits by organizing calibration certificates, test reports, equipment records, and compliance documents.
- Ensured proper documentation of testing procedures, calibration results, and quality records for audit requirements.

Electrical Maintenance Engineer

SABIC Technology Pvt. Ltd., Bangalore.

2026 March - Present

- Performed preventive and breakdown maintenance of electrical equipment to ensure smooth operation.
- Maintained and **troubleshot motors, electrical panels**, transformers, and control systems.
- Performed preventive and breakdown maintenance of LT panels, MCC panels, DBs, motors, cables, breakers, contactors, and control circuits.
- **Operated and maintained 2000 kVA DG**, monitoring voltage, current, frequency, load, fuel, oil pressure, coolant temperature, and battery condition.
- Troubleshot electrical faults and carried out corrective maintenance to minimize equipment downtime and ensure reliable power supply.
- Conducted DG preventive maintenance, power changeover, inspections, and maintenance records while following **electrical safety and LOTO procedures**.
- Followed electrical safety procedures, PPE requirements, LOTO practices, and preventive maintenance schedules.
- Supported emergency breakdown activities and ensured timely restoration of electrical power.
- Experience with **11kV, 33kV, 110kV and 220kV** substation equipment, CT/PT transformers, meters, motors, panels and transformers.

TECHNICAL SKILLS

- IS/IEC Standards and HT/LT Transformer Testing
- Technical Documentation & Reporting
- Multimeter & Clamp Meter Operation
- Calibration & Testing of Electrical Equipment
- Electrical Panel Troubleshooting
- System work MS Excel & Report Preparation
- DG up to 2000kVA & ACB, VCB, VFD
- Electrical Testing & Calibration
- HT/LT Equipment Inspection
- Megger, Earth Resistance & Continuity Testing
- Electrical Safety & LOTO
- Fault Finding & Troubleshooting
- Basic Electrical Protection & Relay Knowledge

LANGUAGE

- Tamil (Read, Write, Speak)
- English (Read, Write, Speak)
