CAREER OBJECTIVE

Backend Developer skilled in Java, Spring Boot, and REST API development. Experienced in authentication flows, CRUD operations, rele-based modules, and real-time features. Strong understanding of OOP, DSA, MVC, SQL joins, and backend architecture. Passionate about clean API design and scalable backend solutions.

EDUCATION

B.Sc Computer Science

Government Arts and Science College

2021 - 2024 Kangeyam

- CGPA: 6.7

HSC (Bio-Maths)

Government Higher Secondary School

2019 - 2021 Thoppampatti

- Percentage: 64%

PROJECTS

Student Management System (Hackathon)

2024 Chennal, India

URL

- Bullt responsive UI integrated with Spring Boot REST APIs.
- Implemented backend logis for student registration, listing, and status updates.
- Delivered a fully working CRUD system within a strict 5-hour hackathon.

Visual Discovery Platform - InspireStack

2024 Kangeyam

URL

- Built Pinterest-style fead using Firestore real-time updates.
- Fixed upload preview flow, added remove, optimized state handling.
- Integrated secure Google OAuth using NextAuth.js.
- Improved UI using shaden/ui + Tailwind for a smooth UK.

COURSES

Java Full Stack Developer

Hands-on training in Core Java, Spring Boot, SQL, REST APIs, and backend architecture.

KEY ACHIEVEMENTS

Hackathon Project Delivery

Successfully developed and delivered a complete Student Management System within a 5-hour hackathon using Java, Spring Boot, and MySQL.

Role-Based Backend System Development

Built multiple role-based-backend modules for an Educational Institution Management System using REST APIs and database integration.

SKILLS

Backend

Java , Spring Boot

Frontend

HTML, CSS, JavaScript, React

Database

MySQL, MongoDB, Firebase, PostreSQL

Tools

VS Code, Intelliij, Postman, Git, MySQL Workbench, MongoDB, Firebase

Core Concepts

JDBC, Microservices, Authentication , Password Hashing, Bcrypt, JWT, REST APIs, MVC, OOP, DSA, Exception Handling

STRENGTHS

Backend Developent

I am skilled in Java and Spring Boot backend development. It helps me build scalable APIs and manage beckend logic efficiently.

Problem-Solving

I can analyze problems and find effective solutions quickly. This helps me handle project challenges and work well under pressure.

Quick Learning

I learn new technologies and tools quickly. This helps me adapt to project requirements and improve continuously.
