CAREER OBJECTIVE

Aspiring biotechnology researcher with a passion for molecular biology and scientific discovery. Eager to contribute fresh ideas, develop advanced research skills, and drive innovations that improve human health and sustainability.

EDUCATION

B.Tech biotechnology, Dhanalakshmi srinivasan engineering college 2023 – 2027
CGPA : 8.7/10(Till fifth semester) Perambalur

HSC,Raj vidhyalaya Matriculation Higher secondary school 2022 – 2023
Percentage : 72% Kuttalam

SKILLS

- Molecular biology Techniques
- Bioinformatics tools
- Bioprocess & fermentation
- DNA/RNA Isolation
- Laboratory skill

COURSES (ONLINE)

Immunology IIT Kharagpur
NPTEL 63%

Microbial biotechnology IIT Guwahati
NPTEL 63%

Engineering aspects of biofuels and biomass coversion technologies IIT Dhanbad
NPTEL 75%

Biophotonics IIT Kharagpur
NPTEL 81%

PROJECT

Extraction of cellulose from onion peel
Scinicorn Labs Private Limited - Marthandam
Extracted cellulose from onion peel waste using chemical treatment to produce a biodegradable and value-added biomaterial. The project promotes sustainable waste utilization and eco-friendly biotechnology applications.

PAPER PRENSTATION

Roever Engineering college for presenting a technical paper on "Extraction of cellulose from onion peel " at a technical symposium .

Participated in National conference for presenting a "Nanoparticles for targeted cancer drug delivery", at Paavai engineering college.

Kumaraguru College of Technology for Participated in International symposium by presenting the " Formulation and characterization of polymeric Nanoparticles for targeted cancer drug delivery "

INTERNSHIP

Molecular biology Trichy
Evolute bioscience
Built a strong foundation in molecular biotechnology through hands-on learning of DNA, RNA, PCR, recombinant DNA technology, and gene expression.
