

GOWSIK PU

ASPIRING SOFTWARE ENGINEER | JAVA DEVELOPER | CYBERSECURITY ENTHUSIAST

gowsikpu@gmail.com | Pudukkottai, TamilNadu.
+91 7339316566 | @GowsikPU

PROFESSIONAL SUMMARY

Computer Science and Engineering student who enjoys turning ideas into practical software solutions. Strong foundation in Java and Object-Oriented Programming, with a growing interest in cybersecurity. A curious learner who values clean code, logical thinking, and continuous improvement while building technology that creates real impact.

EDUCATION

Qualification	Institution	Location	Year of Passing	Grade
B.E. Computer Science and Engineering	Kongunadu College of Engineering and Technology	Trichy, Tamil Nadu	2027	7.2/10 CGPA
Higher Secondary (HSC)	S.F.S Matriculation Higher Secondary School	Pudukkottai, Tamil Nadu	2023	75%

PROJECTS

1. **Converting 2D objects in 3D with minimal set of images**

Tools & Technologies:
Python, TripoSR, Triplane Representation, NeRF MLP, Marching Cubes, Gradio.

Description:
- Developed a pipeline to reconstruct realistic 3D models from one or a few 2D images using deep learning techniques.
- Focused on efficient 3D representation and mesh generation to reduce image requirements while maintaining reconstruction quality.

2. **Intelligent User Activity Monitoring & Anomaly Detection**

Tools & Technologies:
Python, Scikit-learn, Windows Event Logs, SQLite/MySQL, Tkinter, SMTP, Twilio API, Pandas

Description:
- Designed a Windows-based monitoring system to analyze user activity logs and detect anomalous behavior using machine learning techniques.
- Integrated automated email and SMS alerts with an interactive dashboard for real-time monitoring and security event analysis.

TECHNICAL SKILLS

{Programming}

HTML • CSS • JavaScript • Java • Python • SQL

[Core Knowledge]

Object-Oriented Programming • DBMS • Operating Systems • Computer Networks

#Cybersecurity#

Ethical Hacking • Network Security • Vulnerability Assessment

<Tools>

Git • GitHub • Wireshark • Nessus • MySQL • VS Code • Eclipse IDE • MongoDB

Professional Traits

Structured Thinking • Technical Curiosity • Learning Agility • Analytical Reasoning

---

INTERNSHIPS

- **ETHICAL HACKING**
  INFO.TECH | OCT - 2024 (12 Months)
  - Gained hands-on experience in ethical hacking methodologies and fundamental networking concepts.
  - Learned common web and network security vulnerabilities along with basic mitigation techniques.
  - Explored penetration testing workflows, vulnerability assessment, and security best practices.
  - Developed an understanding of attack vectors, system reconnaissance, and defensive security principles.
- **PYTHON INTERN**
  METS TRICHY | MAR - 2023 (6 Months)
  - Gained hands-on experience in writing Python scripts for real-world problem solving.
  - Learned core concepts and advanced concepts in Python like Array, Data structures and File handling.
  - Improved debugging skills and followed clean coding practices using Python standards

---

CERTIFICATIONS

- Software Testing NPTEL | Nov 2025
- Python Programming Infosys Springboard | May 2024
- Programming in Java NPTEL | Dec 2023

ACHIVEMENTS

- Secured 3rd Prize in Paper Presentation at SNS College of Engineering.
- Recognized among the Top 10 teams in the AISE–ANRF Flood Mapping Challenge (120+ teams) for contributing to an AI-based flood detection solution.
