Objective

An adaptable Computer Science graduate specializing in Cyber Security, seeking an entry-level opportunity to leverage technical skills in Python, networking, and problem-solving to contribute to secure business operations and dynamic team objectives.

Experience

- **Nest Skill Technology** May 2025 - May 2025
  Frontward Web Development (Intern)
  Web Page Development: Designed and developed responsive, user-friendly web pages using HTML5, CSS3, and JavaScript, ensuring smooth navigation across all devices.
  UI Implementation: Translated web design concepts and layouts into clean, efficient, and functional frontward interfaces.
  Performance Tuning: Improved website loading speed and layout alignment to deliver an optimal user experience (UX).
  Collaboration & Version Control: Worked closely with team members to test features, fix UI bugs, and managed code using Git and GitHub.

Education

- **Periyar University** 2023-2026
  Bachelor of Science in Computer Science (Cyber Security)
  67.16%
- **C.S.I. Higher Secondary School** 2022-2023
  Higher Secondary Certificate (HSC) - Computer Science
  57.16%
- **C.S.I. Higher Secondary School** 2020-2021
  Secondary School Leaving Certificate (SSLC)
  Pass

Skills

- Python
- Networking
- Cryptography

Projects

- **Health Kindness App**
  Developed a user-friendly application named "Health Kindness App" focused on health tracking and community welfare support. Designed an interactive interface to help users monitor their basic health activities while promoting social wellness and support features.
