PROFESSIONAL SUMMARY

Results-driven Cloud Developer with a B.Tech in Cyber Security and expertise in Python and MySQL. Proficient in designing automated billing systems and implementing secure network infrastructures using CCNA protocols like VLAN and STP. Strong technical foundation in automation, database management, and network configuration, focused on delivering efficient, scalable, and secure technological solutions.

EDUCATION

B.Tech in Cyber Security 2023 – 2026
Dhanalakshmi Srinivasan University, Tiruchirappalli
CGPA: 6.89

TECHNICAL SKILLS

- **Programming & Database:** Python, MySQL
- **Networking (CCNA):** VLAN, VTP, STP, Router-on-a-Stick, DHCP, ACL, SSH, NTP, DNS, Voice VLAN
- **Tools:** Cisco Packet Tracer, Tkinter, Pillow

PROJECTS

DMART Supermarket Billing System Using Python

- **Product Billing:** Select products and calculate quantity-wise price automatically.
- **Automatic Calculation:** Calculates subtotal, 5% GST, and grand total.
- **Digital Bill:** Generates a bill with customer details, bill ID, and QR code.
- **Smart Sharing:** Announces the total using voice and shares the bill through WhatsApp.
- **Tools Used:** Pyttsx3, qrcode, datetime, Tkinter, Random, webbrowser, urllib.parse, Pillow

Smart Office Network Setup using CCNA

- Designed a secure and reliable office network using Cisco Packet Tracer.
- Connected different departments using VLANs, with VTP and STP to manage VLANs and prevent network loops.
- Used Router-on-a-Stick, DHCP and ACL for inter-VLAN communication, automatic IP addressing, and network security.
- Included SSH, NTP, DNS, wireless devices, IP phones, PCs, printers and servers for a practical real-time office network.
- **Technologies Used:** Cisco Packet Tracer, VLAN, VTP, STP, Router-on-a-Stick, DHCP, ACL, SSH, NTP, DNS, Voice VLAN

CERTIFICATIONS

Python Program 17-09-2024 – 02-10-2024
CSK Internship & Training Institute, Salem

- Learned Python programming fundamentals and basic syntax.
- Practiced variables, data types, loops, functions, and OOP concepts.
- Developed small Python programs and applications using practical exercises.
- Improved problem-solving, debugging, and programming skills through hands-on training.

PROFESSIONAL SKILLS

Team Work • Time Management • Verbal and Written Communication
