SYED MUZAKKIR

B.E. Electronics & Communication Engineering Graduate | Technical & Engineering Trainee | Operations & Technology
Perambur, Chennai | 9789897151 | muzakkirsyed147@gmail.com | linkedin.com/in/syed-muzakkir-23b019339

PROFESSIONAL SUMMARY

Electronics & Communication Engineering graduate (2025) with **8 months of professional experience** in a technology environment. Technically oriented, with strong **problem-solving, troubleshooting** and **documentation** skills. Adaptable quick learner and team player, comfortable picking up new processes, tools and technologies. Seeking trainee and entry-level opportunities in **engineering, electronics, operations and technology**.

CORE SKILLS

Technical & Analytical	Technical Problem Solving, Troubleshooting & Debugging, Testing, Data Handling
Systems & Process	System & Process Handling, Documentation, Understanding Requirements, Agile/Process Awareness
Electronics & IoT	Basic Electronics, Arduino-based IoT, Real-Time Monitoring, AI/ML Exposure
Professional	Technical Communication, Team Collaboration, Adaptability, Quick Learning
Computer & AI Tools	Computer Applications, AI Tools (ChatGPT, Gemini, Claude)
Technical Skills	JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, HTML5, CSS3, Git, GitHub

PROFESSIONAL EXPERIENCE

Associate Software Developer — Aroopa Technologies Pvt Ltd *Jan 2026 – Apr 2026*

- Developed a **Discount Management Module** for a business application, translating **business requirements** into configurable percentage-based and fixed-amount discount rules.
- Integrated **REST APIs** to enable real-time **data handling** and consistent data flow across the application.
- **Tested, troubleshot and resolved** UI/UX issues and implemented form validation, improving **reliability and usability**.
- Improved application **performance and responsiveness** through optimization.
- Worked in an **Agile** team environment, adapting to evolving business requirements.

MERN Stack Developer Intern — Aroopa Technologies Pvt Ltd *Aug 2025 – Jan 2026*

- Built responsive, cross-browser applications that supported core application features and user needs.
- Developed and maintained backend **REST APIs** and **data operations** (create, read, update, delete) for core features.
- Collaborated with the team on **system integration** and API handling, ensuring seamless data flow.
- Gained exposure to professional workflows and **quickly learned new technologies and tools** in a live project setting.

PROJECTS

Heart Disease Risk Prediction Using AI/ML — Academic Project

- Built a low-cost, **Arduino-based IoT** device to monitor heart rate and pulse in **real time**.
- Applied **SVM and Random Forest** machine learning models to predict disease risk, achieving **85–90% accuracy**.
- Combined hardware-based data capture with AI/ML analysis to solve a practical monitoring problem.

Ergonomic Gadget Holder — Design Competition, IIT Madras

- Co-designed a concept **ergonomic gadget holder** compatible with mobile, tablet, and iPad devices.
- Presented the concept as part of a team in a design competition organized by **PALS, IIT Madras**.

EDUCATION

B.E., Electronics and Communication Engineering — Aalim Muhammad Salegh College of Engineering *2021 – 2025*
CGPA: 7.83

Higher Secondary School Certificate — Kaligi Ranganathan Montford *2021*
Score: 84%

Secondary School Leaving Certificate — Kaligi Ranganathan Montford *2019*
Score: 81%

ADDITIONAL INFORMATION

- Certification: **Human Resource Management (HRM)** — Great Learning
- Award: **Think Create Engineer Program** — PALS, IIT Madras
- Languages: English, Hindi, Tamil
