CAREER OBJECTIVE

Motivated and detail-oriented graduate with a B.Tech in Computer Science and Engineering (AI & ML specialization). Passionate about data analytics, visualization, and machine learning with hands-on experience in using Python, SQL, Power BI, Tableau, and Excel. Eager to apply analytical and technical expertise to transform data into meaningful insights that support business decision-making.

TECHNICAL SKILLS

Python
• Excellent understanding of loops, conditional statements, and object-oriented programming.
• Strong knowledge of data structures (List, Tuple, Set, Dictionary).
• Proficient in libraries such as NumPy, Pandas, Matplotlib, Seaborn for data cleaning, analysis, and visualization.

MySQL
• Good understanding of RDBMS, constraints, normalization, and relational models.
• Skilled in writing SQL queries involving grouping, subqueries, and joins.
• Experienced with DDL, DML, and TCL operations for data management.

Power BI
• Proficient in building interactive dashboards and performing data modeling.
• Hands-on with DAX functions for calculations and logical expressions.
• Experienced in using charts, filters, and mapping for visual insights.

Tableau
• Skilled in creating interactive dashboards and storyboards for visual analytics.
• Experienced in using filters, parameters, and calculated fields.
• Ability to derive KPIs and summarize trends for business decisions.

MS Excel
• Skilled in data cleaning, organization, and visualization using charts (Bar, Line, Pie).
• Proficient in using Formulas and Functions: SUM, AVERAGE, IF, VLOOKUP, INDEX-MATCH.
• Experienced in creating dashboards and performing data analysis efficiently.

EDUCATION

Bachelor of Technology – Computer Science and Engineering (AI & ML Specialization)
Kalasalingam Academy of Research and Education, Srivilliputhur
- CGPA: 7.02
- Year of Completion: 2025

Higher Secondary Education (HSC)
Jaycees Matriculation Higher Secondary School, Erode
- Percentage: 87.1%
- Year of Completion: 2021

Secondary School Leaving Certificate (SSLC)
Jaycees Matriculation Higher Secondary School, Erode
- Percentage: 82.4%
- Year of Completion: 2019

PROJECTS

Sales Data Analysis – Python (Pandas, Matplotlib)
• Analyzed 3,000+ retail transactions to identify key sales trends and profitability metrics.
• Cleaned and visualized data to identify top-performing products and regions.
• Delivered actionable insights that improved business understanding by 20%.

Yoga Pose Detection for Gout Patients – Deep Learning
• Developed a CNN-based yoga pose detection system to identify postures accurately.
• Provided automated feedback to help gout patients improve flexibility safely.
• Achieved improved classification accuracy through model tuning and dataset enhancement.

Temperature & Humidity Monitoring System – IoT (Arduino UNO)
• Built a real-time environmental monitoring system using DHT11 sensors and LCD display.
• Enabled accurate data tracking and display for temperature and humidity readings.

CERTIFICATIONS

• Data Analytics — ACTE Technologies
• Soft Skills Development — NPTEL
• Leadership and Team Effectiveness — NPTEL
