PROFILE

B.E. Computer Science and Engineering student (CGPA 8.4/10) with hands-on experience building mobile apps in React Native/Expo and full-stack apps on the MERN stack. Shipped an AI-powered healthcare application with OCR-based report analysis. Seeking fresher software developer opportunities to apply technical skills and grow as a software developer.

EDUCATION

Sengunthar Engineering College (Autonomous) 2023 – 2027

B.E., Computer Science and Engineering — Anna University | 7th Semester | CGPA: 8.4/10

TECHNICAL SKILLS

Languages: JavaScript, Java, HTML, CSS, SQL

Frontend: React.js, React Native, Expo

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Tools: Git, GitHub, VS Code

Cloud / DevOps: AWS, Linux, Docker, CI/CD

Spoken: English, Hindi

PROJECTS

Care-Vision AI 2024

React Native · Expo · AI/ML · OCR · MERN

- Built an AI-powered healthcare application that analyzes medical reports and delivers personalized health insights.
- Designed end-to-end workflows: report upload, OCR/data extraction, manual health-data entry, health scoring, disease-risk assessment, and recommendations.

Bank Management System 2026

Java · OOP · File Handling

- Developed a console-based bank management system in Java with account creation, deposit, withdrawal, and transaction history.
- Applied OOP principles — classes, objects, inheritance, encapsulation — with file handling for persistent data storage.

Hostel Management System 2025

React Native · Database · REST API

- Developed a hostel management solution covering student records, room allocation, and attendance/entry management.
- Built admin workflows for creating rooms and managing student records; structured the app around reusable components and a mobile-friendly experience.
