SUMMARY

Computer Science graduate (2026) with hands-on experience in software testing, REST API testing, debugging, application validation, and technical documentation through an internship at Mphasis. Experienced with Java, Spring Boot, REST APIs, MySQL, Postman, and JUnit. Detail-oriented and comfortable following defined procedures, identifying deviations, reporting test results, and working collaboratively to support software quality.

TECHNICAL SKILLS

- Quality & Testing: Manual Testing, REST API Testing, Application Testing
- Programming Languages: Python, Java, JavaScript, HTML, CSS
- Testing & Tools: Postman, JUnit, Git, Maven, Eclipse, VS Code, Android Studio
- Application/Backend: Spring Boot, Spring MVC, REST APIs, Microservices
- Databases: MySQL
- Core Concepts: OOP, DBMS, Exception Handling, HL7 FHIR

INTERNSHIP EXPERIENCE

Mphasis - Java Full-Stack Development Intern Jan 2026 - Apr 2026

Pune, India (Remote) | Tech Stack: Java, Spring Boot, REST APIs, Microservices, HL7 FHIR, MySQL, Postman

- Worked on a Healthcare FHIR Claim Management application using Java, Spring Boot, REST APIs, HL7 FHIR, and MySQL.
- Performed REST API testing with Postman and validated application behavior across claim-processing workflows.
- Supported debugging and defect identification by analyzing unexpected application behavior during development and testing.
- Documented testing observations and technical findings to support accurate issue tracking and team communication.

Library Book Reservation System with Chatbot | Using Java and Python

- Developed a full-stack library management application with user authentication, book search/filtering, reservation tracking, and an integrated chatbot for real-time assistance.
- Built and consumed REST APIs to connect the frontend and backend, enabling seamless data flow across the application.

Handwritten Digit Recognition (Digits Predicted) | Using Python

- Built a digit recognition system using the MNIST dataset and a Convolutional Neural Network (CNN), achieving approximately 98% classification accuracy through model tuning.

User Dashboard - Android App | Using Java

- Developed an Android login and dashboard screen using MVVM architecture and Retrofit, fetching and displaying user profile details from a remote server on authentication.

EDUCATION

KSR College of Engineering - B.E. Computer Science and Engineering 2022 - 2026
CGPA: 8.39 | Tiruchengode, Tamil Nadu

Holy Angel's Matric Hr. Sec. School - HSC 2020 - 2022
Percentage: 77.7% | Tiruchengode

Holy Angel's Matric Hr. Sec. School - SSLC 2019 - 2020
Percentage: 84.0% | Tiruchengode

CERTIFICATIONS AND ACHIEVEMENTS

- Java Programming Certification
- NPTEL - Cloud Computing
- Participated in TNWISE Women Hackathon
- Corsera - Artificial Intelligence
