Career Objective

Final-year B.Tech student in Artificial Intelligence and Data Science with knowledge of Java, Python, and JavaScript, and hands-on experience building full-stack applications using Spring Boot, Node.js, and REST APIs. Continuously improving my understanding of Data Structures, Algorithms, and Object-Oriented Programming. Looking for an entry-level software engineering opportunity to develop my technical and problem-solving skills while contributing to efficient and reliable software solutions.

Technical Skills

Languages	Java, Python, JavaScript, Dart
Frontend	HTML5, CSS3, React.js, Flutter
Backend	Spring Boot, REST APIs, Node.js, Express.js
Databases	MySQL, MongoDB (Atlas), Redis
Cloud & Deployment	AWS EC2, AWS Deployment, Docker
Tools	Git, GitHub, Linux (Basics), Postman
Core Concepts	Data Structures & Algorithms, OOP, DBMS, Problem Solving

Projects

ResQRoute – Smart Ambulance Route Clearance Platform *Flutter, Spring Boot, MongoDB*

- Developed a Flutter mobile application with Spring Boot REST APIs for real-time ambulance tracking and emergency route clearance.
- Integrated MongoDB Atlas, OpenStreetMap, and OpenRouteService API for real-time location services and route calculation.
- Implemented secure authentication and developed distance-based alerts for emergency route clearance.
- Tech Stack: Flutter, Dart, Java, Spring Boot, JWT, MongoDB Atlas, OpenStreetMap, OpenRouteService API

Humanexa – Blood and Helper Donation Platform *MERN Stack*

- Built a platform connecting blood donors and volunteers with people seeking emergency assistance, with search by blood group and location.
- Implemented secure authentication and responsive dashboards for managing donation requests.

AI-Based Lung Disease Detection System *Python, TensorFlow, CNN*

- Developed a desktop application using a trained CNN model to classify chest X-rays into multiple lung disease categories.
- Generated PDF diagnostic reports with patient history management and report-sharing features.

Internship

Full Stack Web Development Intern – Accent Techno Soft (ATS), Coimbatore *Dec 2025 – Jan 2026*

- Developed responsive web pages using React.js and Node.js; worked with MongoDB and MySQL for application data management.
- Integrated frontend and backend modules through REST APIs while collaborating in an Agile development environment.

Coding Profiles

LeetCode – leetcode.com/u/GokulVisionX
HackerRank – hackerrank.com/profile/gokulmahalingam2

Certifications & Achievements

- AWS Certified Cloud Practitioner – Amazon Web Services (2026)
- AWS Certified Generative AI – Amazon Web Services (2025)
- 3rd Prize – Payoda Hackathon (2025) for a real-time ride-sharing solution
- MERN Stack Bootcamp – NoviTech R&D Pvt Ltd (2024)

Education

Excel Engineering College, Namakkal, Tamil Nadu *2023 – 2027*
B.Tech – Artificial Intelligence and Data Science

Government Higher Secondary School, Thuttampatti *2023*
Higher Secondary Certificate (HSC)
