PROFESSINAL SUMMARY

Results driven B.E. Electronics and Communication Engineering student specializing in Embedded Systems, VLSI Design, and PCB Development, with hands on expertise in MATLAB, Python, Java, and AI driven applications. Adept at engineering, simulating, optimizing, and troubleshooting hardware software solutions, with a strong ability to translate technical concepts into scalable, reliable, and innovative engineering solutions.

CORE COMPETENCES

- **Programming Languages:** Python, Verilog, System Verilog, HTML, CSS, Java.
- **Tools s Simulation:** Xilinx Vivado, MATLAB, Eagle, Proteus, Altera Quartus II
- **Electronics Fundamentals:** Digital Electronics, Signal Processing, Basic Analog Electronics
- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Technical Leadership

PROFESSIONAL EXPERINCE

VLSI Design Intern **Aug 2025 – Nov 2025**

EDU TANTR, Coimbatore, Tamil Nadu

• Designed, simulated, and validated combinational and sequential digital circuits with exposure to RTL design, FPGA implementation, and VLSI design flow.

• **Tools Learned:** Proteus, Altera Quartus II, FPGA Programming, Digital Logic Simulate

PCB Design & Fabrication Intern **Jun 2025 – Jul 2025**

Enthu Technology Solutions India Pvt Ltd, Coimbatore, Tamil Nadu

• Designed and validated PCB schematics and layouts using ERC/DRC checks and component placement.

• **Tools Learned:** Autodesk EAGLE, PCB Design, Schematic Capture, ERC, DRC, 3D Board Visualization.

Intern – Deegenex Company **Nov 2025 – Dec2025**

Deegenex, Selam,Tamil Nadu.

- Created and formatted eBooks for digital publication and customer distribution, supporting end-to-end digital content preparation.

KEY PROJECTS

- **Crop IQ – Smart Precision Farming System**
  - Developed Crop IQ using Flutter and Firebase for real-time crop monitoring and irrigation optimization.
  - Implemented data-driven insights and intelligent recommendations for efficient crop management.
- **AI Content Generator**
  - Developed an AI-powered content generator using React and AI APIs for blogs, social posts, emails, ads, and SEO content.

EDUCATION

Bachelor of Engineering (B.E) – Electronics and Communication Engineering **Expected: 2027**

Paavai Engineering College, Namakkal, Tamil Nadu, India

CGPA – 9.22%.

Higher Secondary Certificate (HSC) **2023**

The Modern Academy Matric Higher Secondary School, Pudupatti, Namakkal.
Percentage – 79.83%.

LEADERSHIP EXPERINCE

ISRO World Space Week 2025 Project Explanation **Oct 2025**

- Participated in ISRO Project Explanation competition during World Space Week.

Google Developer Groups(GDG) – Member **2026**

Paavai Engineering College

- Active Member of GDG, Participating in technical activities and community events.

ACHIEVEMENTS

Best Student Award Coding Training | IGENIUNE **APRIL 2026**

- Recognized for logical reasoning and quantitative aptitude skills.

Best Student Award Coding Training | IGENIUNE **JULY 2026**

- Awarded for consistent aptitude performance and learning excellence.

CERTIFICATIONS

- TechSprint VIBE X 1.0 – Top 10 Finalist
- PCB Design & Fabrication Certification – Enthu Technology Solutions
- TCS iON Career Edge Certification
- Embedded System Developer – AICTE/Microchip
- India Tech Summit Innovate 2026 Hackathon Finalist
