PRADEEP VENKATESAN

WEB DEVELOPER | HTML • CSS • JAVASCRIPT

Namakkal, India • +91 7010143057 • pradeepvenkatesan23@gmail.com

PROFESSIONAL SUMMARY

Aspiring Web Developer with hands-on practice in building structured web pages using HTML and CSS, and foundational knowledge of JavaScript, DOM interactions, and responsive layout concepts. Also brings Python, SQL, Git/GitHub, and data-analysis experience from internship and project work. Focused on writing clean, accessible code and developing user-friendly websites; eager to contribute and grow in an entry-level web development role.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Flexbox, CSS Box Model, basic responsive design, JavaScript fundamentals, DOM manipulation, events

Web Concepts: Forms and validation basics, semantic HTML, links and media embedding, iframe, CSS positioning and stacking order

Programming & Data: Python, SQL (basics), Pandas, NumPy, Matplotlib

Tools: Git, GitHub, VS Code, Jupyter Notebook, Excel

PROJECTS

Institute Website — Frontend Practice Project

- Built practice web pages for an institute website using HTML page structure and CSS styling.
- Used headings, paragraphs, links, images, and layout elements to organize content into readable sections.
- Practiced CSS selectors, spacing, box-model properties, Flexbox, and visual alignment.
- Worked with form elements and JavaScript DOM/event concepts while learning interactive page behavior.

YouTube Analytics Dashboard — Python, Pandas, Matplotlib

- Cleaned and organized exported channel analytics data using Pandas.
- Reviewed views, impressions, click-through rate, watch time, and traffic-source metrics.
- Created charts to communicate trends and summarize performance.

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern | Novitech R&D; Pvt Ltd | Nov 2024 – Dec 2024

- Developed Python-based workflow demonstrations using NLP preprocessing and text-classification pipelines; prepared and validated data and documented processing steps.

Data Analytics Trainee | Novitech R&D; Pvt Ltd | Nov 2024 – Dec 2024

- Used Pandas for data cleaning and exploratory analysis, created Matplotlib visualizations, and supported repeatable Python/Excel reporting workflows.

EDUCATION

Bachelor of Engineering, Mechanical Engineering — Adhiyamaan Engineering College
