Objective

Motivated fresher seeking an entry-level role, eager to contribute to meaningful projects, enhance user experience, and gain hands-on industry experience while continuously learning and growing professionally.

Education

BE-CSE 2023 – 2027
Kongunadu College of Engineering and Technology, Trichy Trichy
8.15 CGPA (till 6th Semester)

HSLC 2022 – 2023
St.Mary's Higher Secondary School Samaria, Manaparai Manaparai
84%

SSLC 2020 – 2021
St.Mary's Higher Secondary School Samaria, Manaparai Manaparai
Pass

Skills

Languages known
- Java
- Python
- C

Web Technology
- HTML
- CSS
- JavaScript

Database
MySQL

Area of Interest

Full Stack Web Development

Database Management System (DBMS)

Internship Experiences

Inspire Softech Solutions
Transformative Python And Machine Learning Journet With A Hands-On Mini Project
Gained hands-on experience in Python and Machine Learning through predictive modeling and a real-world data transformation mini-project.

Prime Capital Infotech
Front-End Development
Worked on building responsive, user-friendly web interfaces with a focus on usability and performance.

Viwise Technologies
Python with Data Analytics
Developed skills in Python-based data analysis, processing, and visualization to support data-driven insights.

Project Details

GSM-Based Wireless Sensor Network For Real-Time Monitoring And Control of Agriculture Parameters

- Developed a GSM-integrated Wireless Sensor Network (WSN) to monitor and control critical agricultural parameters like soil moisture and temperature in real-time.
- The system enables farmers to remotely manage irrigation and crop health via SMS alerts, optimizing water usage and crop yield.
- My Contribution: Backend Developer

Multimodal Emotion Detection Using Voice and Text for Mental Well-Being

- This project uses both text and voice to accurately detect human emotions beyond basic positive or negative feelings.
- It identifies deeper emotions like stress, sadness, and happiness, and provides personalized suggestions to improve mental well-being and user experience.
- My Contribution: Backend Developer

Certifications

Value Added Courses

- I have completed a Java Value-Added Course at Kongunadu College, strengthening my programming fundamentals.
- I have completed a Django Value-Added Course at Kongunadu College, gaining foundational knowledge in web application development.

Event Participations

- Presented on Sustainable Development Goals (SDG2 & SDG6) at K.Ramakrishnan College of Engineering, highlighting smart agriculture technology.
- Presented on Cyber Security topics including network security and threat detection at Annapoorana engineering college.
- Delivered a presentation on Full Stack Development at Indra Ganesan College of Engineering.
- Attended a Jetson AI Fundamentals Workshop by Panteche-Learning, focused on EdgeAI and real-time deep learning deployment.
- Participated in a National Webinar on Nursing Life & Wellness conducted by CSI Kancheepuram.
- Participated in a Generative AI Workshop by Marcello Tech, exploring text-to-art generation and creative AI applications.
