CAREER OBJECTIVE

Fast-learning Biomedical Engineering student seeking an entry-level opportunity in Biomedical Engineering, Medical Devices, Embedded Systems or Biomedical R&D to apply biomedical instrumentation, project experience and problem-solving skills.

EDUCATION

B.E. Biomedical Engineering — Kongunadu College of Engineering and Technology 2023 – 2027
CGPA: 8.2

Higher Secondary Schooling — Lakshmi Matric Higher Secondary School 2022 – 2023
83%

TECHNICAL SKILLS

Programming	C, C++, Java (Basics)
Embedded & Hardware	ESP32, Arduino, Embedded Systems, Sensor Integration
Software / Tools	Arduino IDE, MATLAB, Basic Image Processing, IoT
Biomedical	Biomedical Instrumentation, Medical Devices, Biomechanics
Sensors	Temperature, pH, Moisture, Gas

PROJECTS

Real-Time Seizure Prediction and Emergency Alerting System Using Arduino
Arduino | *Biomedical Sensors* | *Real-Time Monitoring* | *Emergency Alerts*

Non-Contact Wound Infection Detector
IoT | *Temperature* | *pH* | *Moisture* | *Gas Sensors*

BioSense Bin – Smart Biomedical Waste Segregation
Image Processing | *ESP32-CAM* | *Arduino* | *Sensors* | *Servo Motor* | *LCD* — Selected for AMTZ Hackathon.

EcoWarm – Indigenous Compostable Menstrual Heat Pack
Heat Therapy | *Biodegradable Materials* | *Controlled Heat* — Selected for MSME 6.0.

Smart Power Isolation System
IoT | *Fault Identification* | *Targeted Isolation* — Concept for identifying affected streets and supporting faster fault isolation.

Portable Tear Biomarker Analyser
Portable Diagnostics | *Tear Biomarker Analysis* | *ESP32* | *pH / TDS* — Selected for Dr Agarwal's EyeQInnovate Hackathon in collaboration with StartupTN.

INTERNSHIP & HOSPITAL TRAINING

Biomedical Instrumentation Intern — Newton Biomedical Service
Hands-on training in biomedical instrumentation handling, testing and basic troubleshooting of medical equipment.

Embedded Systems Intern — Galwin Technology
Practical experience in microcontroller basics, hardware interfacing and real-time system applications.

Hospital Training — Sindhuja Hospital, Manapparai (15 Days)
Biomedical equipment, hospital environment and clinical workflow.

HACKATHONS & ACHIEVEMENTS

- Grand Finalist – VIT Bhopal HealthHack
- Selected – AMTZ MedTech / AMTZ Hackathon
- Shortlisted – UYIR Hackathon
- Participated – EyeQInnovate Hackathon under Dr Agarwal's / StartupTN
- Selected – MSME 6.0 for EcoWarm

CERTIFICATIONS & TRAINING

NPTEL: Internet of Things; Biomechanics; Organizational Behaviour
Training: Medical Coding; Embedded Systems; Biomedical Hardware; MATLAB Simulations; Technical workshops & seminars

LEADERSHIP & INTERESTS

Activities: Class Representative; Science Club; Multimedia Club; Women Cell
Languages: Tamil | English | Japanese
Interests: Painting | Dancing | Cooking | Healthcare Innovation
