MOUNIKA M.S.

B.SC. ARTIFICIAL INTELLIGENCE & DATA SCIENCE

PROFESSIONAL SUMMARY

B.Sc. Artificial Intelligence & Data Science student with hands-on exposure to mobile app development and data science through two internships, alongside project work in machine learning and web development. Skilled across Python, MongoDB, and front-end technologies, and certified in MongoDB, Oracle Cloud AI, and Generative AI. Seeking an internship or entry-level role in software development, data analytics, or applied AI.

INTERNSHIP EXPERIENCE

Zen 1 TechPark | Mobile App Development Intern

July 2026 (18 days)

- Contributed to mobile app development tasks under senior developer guidance, gaining hands-on exposure to the mobile build and testing cycle
- Practiced translating feature requirements into working UI components, strengthening debugging and self-directed learning skills

Techvolt Software Pvt. Ltd | Data Science Intern

January - February 2026 (18 days)

- Worked with real-world datasets to practice data cleaning, preprocessing, and exploratory analysis using Python
- Gained foundational exposure to the end-to-end data science workflow, from raw data to basic analytical insights

Self-employed | Freelance Content Creator

Ongoing

- Create social media content and design marketing posters for graphic design clients
- Plan and manage Meta Ads campaigns for clients as well as self-run promotional campaigns

PROJECTS

IntelliTask | ML-Enhanced Task Management System

Academic Major Project, B.Sc. AI & DS

- Built a smart to-do list application using supervised learning to auto-prioritize tasks and a regression model to predict task completion time
- Applied unsupervised clustering to auto-categorize tasks by theme; designed an analytics dashboard surfacing productivity trends
- Tech stack: Python, scikit-learn, and a web-based dashboard front end

Digital Portfolio | Responsive Website

- Designed and built a personal portfolio site featuring an interactive JavaScript quiz app and a CSS-styled blog section
- Implemented fully responsive layouts using Flexbox and media queries, tested across mobile and desktop breakpoints

EDUCATION

B.Sc. Artificial Intelligence and Data Science — VET Institute of Arts and Science Co-Education College, Erode

Expected 2027 | Overall CGPA: 73%

Higher Secondary Certificate (HSC) — Computer Science, Government Higher Secondary School, Erode

2023 | 76%

Secondary School Leaving Certificate (SSLC), Government Higher Secondary School, Erode

2021 | 66%
