Resume Screening	Public Speaking
Knowledge of recruitment	Communication

PROJECT

Automated Ticket Booking System in Theatres:

Developed a ticket booking system for multiple members that generates a unique barcode and sends it via email. At the theatre, the barcode is scanned and verified with stored data to confirm entry.

Vision Based Hands Free Virtual Keyboard Using Eye And Head Movements:

Implemented real-time facial landmark tracking for accurate cursor navigation and character selection, improving accessibility for users with motor impairments

INTERNSHIP

UI/UX Design (Figma)

During my UI/UX Design internship, I designed user-friendly wireframes, prototypes, and responsive interfaces using Figma. I collaborated with team members to refine designs based on feedback and ensure consistency across screens.
