RAMANA A

MECHANICAL ENGINEERING STUDENT

7603922532 | ramanaofficial005@gmail.com | https://www.linkedin.com/in/ramana-a-773651210

CAREER OBJECTIVE

Motivated Mechanical Engineer with a strong interest in design and manufacturing. A quick learner with innovative thinking and problem-solving skills, eager to apply engineering knowledge and develop efficient, practical solutions while continuously improving technical skills.

EDUCATION

B.E. (Hons.) – Mechanical Engineering
Government College of Engineering, Salem
CGPA: 8.53 (Present)

Higher Secondary Education
Dr. Natarajan Matric Higher Sec. School | Vettangulam | Arakkonam
Score: 92.83%

TECHNICAL SKILLS

CATIA V5 | SolidWorks | ANSYS | GD&T

INTERNSHIP

Steel Authority of India Limited (SAIL), Salem | DEC-2025

- Learned about Hot Rolling and Cold Rolling processes used in stainless steel production.
- Observed Annealing, Pickling, and Finishing operations.
- Gained basic knowledge of steel manufacturing, quality inspection, and industrial safety.

ACADEMIC PROJECT

Automatic Retractable Step Guard for Railways

- Developed an automatic train step guard system to reduce the gap between the train and platform.
- Designed a mechanism for smooth extension and retraction of the step plate during train stoppage.
- Focused on improving passenger safety and accessibility during train boarding and alighting.

IOT based Smart Irrigation for Agriculture

- Monitored soil moisture levels to identify the water requirements of plants.
- Automated water spraying based on soil moisture conditions to support efficient irrigation.
- Designed a moving irrigation system to deliver water across the agricultural area.

LEADERSHIP & RECOGNITION

Co-Editor – Department Magazine

- Contributed to the planning, editing, and preparation of the department magazine published twice a year.
- Coordinated with students and contributors to collect, review, and organize content for publication.
