HARINI MURUGESAN

AI DEVELOPER | PROMPT ENGINEERING | GENERATIVE AI

Tamil Nadu, India | [Phone] | [Email] | LinkedIn: [Link] | GitHub: [Link]

PROFESSIONAL SUMMARY

Final-year B.Tech Artificial Intelligence & Data Science student with hands-on knowledge of Python, Java, SQL, Machine Learning, Data Analytics and Generative AI. Interested in AI application development and Prompt Engineering, with practical exposure to structured prompting, AI-based recommendation systems and problem-solving projects. Quick learner with a strong interest in building useful, user-focused AI solutions.

TECHNICAL SKILLS

Programming	Python, Java, JavaScript
AI / ML	Machine Learning, Generative AI, AI Fundamentals, Data Preprocessing, Model Evaluation
Prompt Engineering	Role Prompting, Few-Shot Prompting, Structured Prompts, Prompt Testing & Refinement
Data	SQL, MySQL, Pandas, NumPy, Data Analytics
Web	HTML, CSS, React.js
Tools	Git, GitHub, VS Code, Jupyter Notebook
Concepts	OOP, DBMS, REST API Basics, Data Visualization

PROJECTS

Future Track – AI-Based College Guidance System / *Python, AI/ML, Web Technologies, SQL*

- Designed an AI-based guidance platform for students after 10th and 12th standard.
- Uses marks, stream, location and preferences to support course and college recommendations.
- Designed structured prompt and recommendation logic for relevant AI-generated guidance.

AI-Based Government Scheme Recommendation System / *Python, Machine Learning, Generative AI*

- Designed an AI-driven approach to recommend relevant government schemes based on user requirements.
- Created structured inputs and prompt flows for personalized, user-friendly recommendations.

AI-Based Phishing Detection System / *Python, Machine Learning*

- Explored preprocessing, feature identification and classification concepts for suspicious content detection.
- Focused on an AI-based approach for early identification of potentially phishing-related links/messages.

AI & PROMPT ENGINEERING

Created structured prompts for generation, classification, summarization and recommendation tasks; practiced role-based prompting, context-rich prompts, few-shot examples and structured output formats; refined prompts by evaluating AI responses for relevance, consistency and clarity.

EDUCATION

B.Tech – Artificial Intelligence & Data Science, SVHGC | Final Year | CGPA: 8.7

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank – Java Introduction
- Typewriting – Senior Grade with Distinction
- AI / technology project participation

STRENGTHS

Adaptable · Quick Learner · Problem Solving · Curious about AI · Positive to Feedback
