PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate (2026) with hands-on exposure to full stack development — frontend, backend, and database. Completed a MERN Full Stack Development internship at Yellowmatics.ai Pvt Ltd, building UI components in HTML, CSS, and JavaScript and backend services in Flask, and worked through a guided academic project (Smart Hostel Complaint Handling System) covering login, tracking, and a MySQL-backed database. Comfortable with Java, Python, SQL, and MongoDB. Open to entry-level roles in software development.

EDUCATION

B.Sc. Computer Science — Erode, Tamil Nadu
VET Institute of Arts and Science Co-Education College — 2026
CGPA: 8.0 / 10

Class 12 (Senior Secondary) — Erode, Tamil Nadu
SVN Matriculation Higher Secondary School | Board: State — 2023
Score: 70%

PROJECTS

Smart Hostel Complaint Handling and Student Support System — guided academic project

- Implemented a web-based complaint management platform following structured guidance from teaching staff
- Worked through building user login, complaint submission, and status tracking features
- **Tech Stack:** HTML, CSS, JavaScript, Python, Flask, MySQL
- Gained hands-on, guided experience connecting a frontend, backend, and database in a working application

INTERNSHIP

MERN Full Stack Development Intern — Yellowmatics.ai Pvt Ltd — Erode, Tamil Nadu
Feb 11 – Feb 24, 2026

- Contributed to an AI-powered movie recommendation system, building UI components in HTML, CSS, and JavaScript
- Built backend services with Flask and Flask-CORS to connect frontend requests to recommendation logic
- Delivered a working prototype end-to-end (frontend, backend, integration) within a 2-week internship period

ONLINE COURSES

Basics of Python — Infosys Springboard — 2023
- Can write structured Python programs using core data types, control flow, and functions

Object-Oriented Programming Using Python — Infosys Springboard — 2023
- Can design classes, objects, and inheritance-based structures in Python

Introduction to MongoDB — MongoDB — 2023
- Can model and query document-based data using MongoDB collections

AI for Sustainable and Inclusive Design — National Seminar — 2024
