ABOUT ME

Passionate and hardworking Electronics and Communication Engineering student with an interest in core companies and new technologies. Skilled in video editing, data entry, and basic computer applications with good communication and teamwork skills. Eager to learn, gain practical experience, and contribute positively to organizational growth while developing personal and professional skills.

SKILLS

- Data entry
- SAP tools
- Team work
- Time management
- problem solving
- Circuit design

HOBBIES

- Reading books
- Listening to music
- Video editing
- Photography
- Drawing
- Traveling
- Playing sports
- Cooking
- Content creating
- Learning new technologies

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

University of Design (2022)-(2026)

CERTIFICATE

Internship Completion Certificate in ECE Domain – 2026

Embedded system using Arduino proteus

EXPERIENCE

PRODUCTION TRAINEE / PRODUCTION DEPARTMENT
POPULAR SYSTEMS PVT LTD

- Worked in bus electrical and electronic circuit production processes
- Assisted in circuit assembly, wiring, and component installation
- Performed quality inspection and testing of electrical systems
- Supported production operations by following safety and quality standards
- Gained practical knowledge in manufacturing and industrial workflow
- Coordinated with team members to complete production targets on time
- Learned basic troubleshooting and maintenance support activities
- Improved communication, teamwork, and problem-solving skills in a professional environment

MOBASE ELECTRONICS INDIA PRIVATE LIMITED

- Worked in Process Team handling production operations
- Monitored manufacturing process and quality standards
- Supported automotive electronic component assembly and testing
- Assisted in machine operation and process improvement activities
- Gained experience in automotive electronics manufacturing and production flow

Project

Smart byke safety system with ingnision control and air pressure

Developed a smart bike safety system using sensors and microcontroller technology.
Implemented ignition control based on rider safety conditions such as helmet detection.
Integrated air pressure monitoring system to track tyre pressure and improve vehicle safety.
Used electronic components and embedded systems for real-time monitoring and control.
Improved rider safety by preventing unsafe vehicle operation and reducing accident risks.

HL KLEMOVE (HL클레무브) IS A KOREAN AUTOMOTIVE TECHNOLOGY COMPANY.

HL Klemove India Pvt. Ltd.
MM Team – SAP Operations
- Handled invoice and bill processing activities in SAP.
- Verified invoice details with Purchase Orders (PO) and supporting documents.
- Assisted with invoice posting and resolving SAP-related errors.
- Maintained and updated material and invoice records.
- Coordinated with internal teams for invoice and payment-related activities.
