CAREER OBJECTIVE

Motivated Computer Science student seeking an opportunity to apply my programming, problem-solving, and software development skills in a challenging environment. Eager to contribute to innovative projects, learn emerging technologies such as Artificial Intelligence and Machine Learning, and grow as a skilled software professional while adding value to the organization.

TECHNICAL SKILLS

Languages: Python, SQL

Web Technologies: HTML, CSS, JavaScript

Libraries & Frameworks: NumPy, Pandas, OpenCV

Tools & Platforms: VS Code, Antigravity, Jupyter Notebook, Git, GitHub, Supabase, Vercel

Additional Skills: Backend Development (Supabase), Requirements Analysis, Debugging, Version Control, AI Tools

PROJECTS

Smart Attendance System | *Team Project* **July 2025 – August 2025**

- Designed and built a digital attendance management system to replace manual tracking.
- Automated attendance recording and report generation, reducing manual errors.
- Implemented data validation logic to keep records accurate, reliable, and consistent.
- **Status:** Currently in use at school level in a production-ready state.
- **Learnings:** Gained hands-on experience in teamwork, database design, and building reliable, user-friendly systems for real-world use.

Digital Suggestion Box | *Team Project* **Nov 2025 – Jan 2026**

- Developed a digital platform for collecting and managing suggestions and feedback.
- Designed a database schema to securely store and manage submitted responses.
- Built features for tracking and reviewing submissions; project adopted by the college.
- **Status:** Deployed at our college and received an appreciation from the college management.
- **Learnings:** Learned secure data handling, schema design, and gathering requirements from real users and stakeholders.

WORK EXPERIENCE

Freelance Web Developer | *Self-Employed* **Present**

- Take on client projects and build websites and custom applications using HTML, CSS, JavaScript, Python, and SQL.
- Gather and analyze client requirements and convert them into clear, working solutions.
- Manage source code with Git and GitHub and deploy projects to production on Vercel.
- Provide ongoing support, bug fixes, feature updates, and maintenance after delivery to keep client applications reliable.

EDUCATION

Bachelor of Science (B.Sc.), Computer Science **2024 – 2027**
Nandha Arts and Science College (Autonomous), Erode
Score: 76.9% (up to 4th semester)

Higher Secondary Education **2023 – 2024**
Bishop Ubagaraswamy Higher Secondary School, Tiruppur
Score: 76%

ACHIEVEMENTS

- Won 2nd place for a team project at the college Innovation Day.
- Participated in college-level hackathons.
- Digital Suggestion Box project selected for implementation at the college.
