PRAKASH R

FTTH FIELD ENGINEER | Fiber Optic & GPON Specialist | OTDR & Splicing
Salem, Tamil Nadu | +91 78716 56530 | prakashraja585@gmail.com

PROFESSIONAL SUMMARY

FTTH & Fiber Optic Engineer with 5+ years of hands-on experience in installation, OTDR testing, fusion splicing and ODN maintenance. Installed and activated 300+ FTTH connections for Reliance Jio with 95%+ customer satisfaction and restored faults in under 2 hours per incident. Strong in GPON, ONT/OLT configuration and LOS/LOF/SNR troubleshooting, with LAN/WAN background. Seeking FTTH / Fiber Engineer roles in Chennai, Coimbatore or Bangalore.

CORE SKILLS

Fiber & Access: FTTH installation, GPON, ONT/ONU activation, OLT configuration, ODN maintenance

Testing & Splicing: OTDR testing, fusion splicing, optical power measurement, fault location

Troubleshooting: LOS / LOF / SNR resolution, Wi-Fi troubleshooting, preventive maintenance

Networking: LAN/WAN support, routers & switches, patch panels

Tools: OTDR, fusion splicer, OLT/ONT devices, CRM & ticketing software, MS Office

PROFESSIONAL EXPERIENCE

Jio Fiber Engineer — Reliance Jio Communications Ltd *2021 – 2026 | Coimbatore / Salem*

- Installed and activated 300+ FTTH connections for residential and business customers (~4 installations per day), maintaining 95%+ customer satisfaction.
- Performed OTDR testing, fusion splicing and fault diagnostics, keeping downtime under 2 hours per incident.
- Diagnosed and resolved LOS, LOF and SNR issues with a repeat-complaint rate of only ~2%.
- Managed ONT/OLT configuration and customer activation end-to-end, alongside ~2 fault repairs per day.
- Carried out preventive maintenance on fiber distribution networks (ODN) to reduce unplanned outages.

Network Engineer — 24x7 InfoTech Limited *2019 – 2021 | Tamil Nadu*

- Configured and maintained routers and switches for enterprise LAN/WAN networks.
- Monitored network performance, identified bottlenecks and resolved connectivity issues proactively.
- Delivered network troubleshooting support and hardware installation for business clients.
- Logged and tracked service requests and documented configurations using CRM/ticketing software.
