📍 Kadambur Main Road,74 Krishna Puram main Road, Gangavalli (TK),Salem, Tamil Nadu

CAREER OBJECTIVE

Motivated B.Tech student specializing in Artificial Intelligence and Data Science with strong interest in AI, Data Analytics, IOT, and Safety Engineering. Skilled in Python, C programming, teamwork, communication, leadership, and time management. Passionate about developing intelligent and reliable systems to solve real-world engineering challenges.

EDUCATION

B.Tech – Artificial Intelligence & Data Science
Gnanamani College of Technology
Academic Year: 2023 – 2027
CGPA: 7.9 / 10.0

TECHNICAL SKILLS

- Python Programming
- C Programming
- Data Analytics Fundamentals
- Artificial Intelligence Basics
- Problem Solving & System Analysis

SOFT SKILLS

- Leadership
- Communication Skills
- Teamwork & Collaboration
- Time Management
- Critical Thinking

PROJECT

AI-BASED STUDENT PERFORMANCE PREDICTION

Predict student marks and performance using attendance, internal marks, study hours, etc. Technologies using python, pandas, Scikit-learn, Power BI

KEY IMPROVEMENTS:

- Add early warning system for weak students
- Use Random Forest and XGBoost comparsion techniques
- Add study materials and attendance alerts
- Build dashboard using Power BI and Streamlit

CERTIFICATIONS

- NPTEL Certification – Human Computer Interaction (Elite + Silver)

ACHIEVEMENTS & ACTIVITIES

- Active volunteer in academic and social initiatives
- Participated in leadership and teamwork-oriented activities

INTEREST AREAS

Artificial Intelligence | Data Science | Python Problem Solving| Safety Engineering
