PROFILE SUMMARY

final year Artificial Intelligence and Data Science student seeking a Software Development role with a strong ability to learn and adapt rapidly to emerging technologies. Proficient in building and integrating AI-powered solutions, with hands-on experience in data-driven development and modern software practices. Demonstrates a consistent ability to pick up new frameworks, tools, and workflows quickly — including the latest AI-assisted development tools — and translate them into efficient, real-world applications.

EDUCATION

Under Graduation : B.Sc. CS (AI & DS) | Nandha Arts and Science College - 2026

HSLC : Sree Amman Matric Higher.sec School -2022 (73%)

SSLC : Sree Amman Matric Higher.sec School -2020

PROJECTS

EV Population Analysis

This project analyzes the adoption of Electric Vehicles (EVs) across the United States using data on states, brands, models, and driving ranges. It leverages Python for data cleaning and Power BI for interactive dashboards, delivering insights into EV trends, popularity, and regional adoption.

Datalense Ai

Developed a lightweight AI-powered Streamlit web app that processes CSV files up to 200MB, automatically generating interactive dashboards, data quality reports, and natural language summaries. Built end-to-end using AI-assisted development practices, showcasing rapid prototyping and independent execution.

Flare content organiser

Developed a web-based content organiser and planner for Instagram and YouTube creators using HTML, CSS, and JavaScript. Flare streamlines the full content workflow — writing, planning, and organising posts and videos in one unified interface, built end-to-end using AI-assisted development practices.

CERTIFICATES

- IBM - Python For Data Science | 2024
- IBM - Introduction to Data Science |2024
- VOIS Tech Data Analytics

SKILLS

- Python
- TallyERP
- Excel
- Prompt engineering
- Power bi
- Ai engineering
- Mysql
- Collaborative
