SUMMARY

Analytical and detail-oriented Certified Data Analyst with project experience transforming complex datasets into actionable insights. Proficient in Excel, Power BI, SQL, Python, Power Query, and DAX, with strengths in dashboard development, statistical analysis, and business reporting. Eager to apply strong problem-solving skills in a real-world environment and contribute effectively to team success.

SKILLS

- **Technical Skills:** Microsoft Excel, Power BI, Power Query, DAX, Data Cleaning, Data Modeling, ETL, Statistics, Data Visualization, Dashboard Development, and Business Intelligence.
- **Programming & Databases:** Python and SQL.
- **Development Environment:** Google Colab.
- **Version Control & Collaboration:** GitHub.
- **Soft Skills:** Analytical Thinking, Problem Solving, Critical Thinking, Business Acumen, Data Storytelling, Stakeholder Management, and Adaptability.

CERTIFICATION

Certification in AI-Driven Data Analytics From Illinois Institute of Technology **P u r s u i n g**

Certification in AI-Driven Data Analytics From Entri Elevate

Certification in AI-Driven Data Analytics from National Skill Development Corporation (NSDC)

- Applied data analytics and statistical techniques to solve business problems and support trend analysis and forecasting.
- Built interactive Power BI dashboards using advanced DAX calculations, data modeling, and data visualization.
- Used SQL, Python, and Power Query for data extraction, cleaning, transformation, and analysis.

PROJECTS

HR Employee Attrition & Retention Analytics [GitHub] **Python, Power BI, DAX, Excel**

• Analyzed 1,470 employee records across multiple workforce attributes to identify attrition patterns, employee trends and retention factors.

• Identified 231 employee exits and an overall attrition rate of 15.7%, highlighting areas for focused retention analysis.

• Presented key insights and recommendations to support workforce planning and employee retention decisions.

Pure Bake Sales Analysis Dashboard [GitHub] **Excel, Power BI**

- Built a Power BI dashboard to analyze cookie sales, revenue of **INR 4.78M**, and profit trends.
- Identified that weekdays contributed 71% of total profit and highlighted key revenue-driving products and locations.
- Generated insights into payment trends, sales performance, and declining monthly profit patterns.

Music Performance & Streaming Analytics [GitHub] **Excel, Power BI**

- Cleaned and analyzed 4K songs covering 2K unique artists and 4K albums using Excel and Power Query.
- Built KPI measures revealing 11.27T total streams, an average popularity score of 63.50, and 2023 as the strongest release year.
- Compared platform performance across Spotify, YouTube, and TikTok to identify audience-engagement and streaming trends.

EDUCATION

Master of Engineering in Power Systems

Vivekananda College of Engineering for Women

EXPERIENCE

Digital Associate **Dec 2018 – Apr 2022**

Amazon
