AAKIB AHAMED M

aakib.ahamed71@gmail.com +91 80569 50119 Erode, Tamil Nadu, India github.com/AaKIb-T0

.linkedin.com/in/aakib-ahamed

SUMMARY

AI/ML and Software Engineering graduate with hands-on experience building machine learning models, web applications, REST APIs, and automation solutions. Experienced in Python, PyTorch, SQL, deep learning, NLP, and full-stack development, with projects spanning medical imaging, time-series forecasting, and deployed web applications. Strong foundation in data structures, machine learning, and software development.

CORE COMPETENCIES

- Programming: Python, Java, SQL, C
- Machine Learning: PyTorch, Deep Learning, CNN, LSTM, NLP, Transformers, Machine Learning Algorithms
- Data & Analytics: Pandas, NumPy, Data Visualization
- Web & Backend: REST APIs, Full-Stack Development, Responsive Web Development Tools: Git, Docker
- Core Concepts: Data Structures, Generative AI

PROJECTS

Dc Media AI 07/2026
- Architected and deployed a modern, responsive agency web application (dcmediaai.com)
- Engineered interactive user interfaces and optimized loadscale in multiplatforms

Liver Tumor Segmentation using RegNet 09/2025
• Designed a deep learning-based medical image segmentation model using PyTorch
• Achieved 93% Dice Score, improving tumor detection accuracy• Optimized model inference by 15%, enhancing real-time clinical usability

Amazon Stock Price Prediction LSTM 08/2024
• Developed an LSTM-based time series forecasting model for stock price prediction
• Performed feature scaling and sequential data modeling to improve prediction performance
• Improved prediction reliability through sequential data modeling and feature scaling.

EXPERIENCE

Trainee Software Engineer Intern 02/2025
Boston INC., Coimbatore
• Engineered automation workflows reducing reporting effort by 10%
• Refactored legacy code to improve readability and system performance

Product Developer Intern 07/2023
Infomin Solutions, Erode
• Implemented product features in Python and integrated them into the codebase using Git.
• Worked in an Agile environment with daily stand-ups and sprint planning.

Full Stack Developer 03/2026
Crescent Moon Consulting Services
• Built responsive web applications using modern frontend frameworks
• Developed reusable UI components and RESTful APIs
• Optimized performance and resolved cross-browser compatibility issue

EDUCATION

Higher Secondary Education 02/2022
Government Higher Secondary School HSC : 69%

B.Tech in ArtificialIntelligence and Data Science 2022 – 2026
Velalar College of Engineering and Technology, Erode — CGPA: 7.59

LEADERSHIP & ACHIVEMENTS

Department Lead —Entrepreneurship Development Cell Led departmental initiatives to promote entrepreneurship
Executive Member — ASYPYA Club, VCET.
