Professional Summary

AI and Data Science professional with hands-on experience in computer vision data annotation and video-based object labeling at iMerit Technology Services. Familiar with bounding boxes, keypoint annotation, object classification, and object tracking. Skilled in Python, Java, and SQL, with project experience in AI-powered applications. Seeking opportunities in AI data operations, computer vision, and machine learning.

Professional Experience

iMerit Technology Services Pvt. Ltd. *Apr 2026 – Present*

Apprentice – Projects | Delivery Department *Coimbatore, Tamil Nadu*

- Perform computer vision data annotation and video-based object labeling for AI applications.
- Annotate video frames using bounding boxes, keypoints, object classification, and tracking IDs.
- Classify objects such as drones, birds, aircraft, people, and vehicles according to project guidelines.
- Handle occluded and low-visibility objects while maintaining annotation consistency and data quality.

StackQueue *1 Month*

Full Stack Development Intern

- Developed responsive web pages using HTML, CSS, JavaScript, and Java during a one-month internship.
- Created interactive UI elements with a focus on usability and user experience.

Technical Skills

Programming: Python, Java, C
Databases: MySQL, Firebase
Web Technologies: HTML, CSS, JavaScript
Tools: Git, GitHub, VS Code, Eclipse
Data Science & ML: Machine Learning, Deep Learning, Neural Networks, Computer Vision, Statistical Analysis, Probability & Statistics
AI and Computer Vision: Data Annotation, Video Annotation, Bounding Boxes, Keypoint Annotation, Object Classification, Object Tracking

Projects

CareerGuide – AI-Based Career & Placement Preparation Platform *HTML, CSS, JavaScript, Firebase*

onestopca.netlify.app

- Developed an AI-powered centralized platform to help students track coding, aptitude, and interview preparation progress.
- Implemented features such as daily activity tracking, streak monitoring, performance analytics, and interactive dashboards.
- Integrated an AI assistant for interview preparation, doubt solving, and personalized learning support.

Hotel Billing Assistant *Python, Speech Recognition*

- Implemented a voice-enabled billing system using Python that processes spoken food orders and generates bills, reducing manual billing time by 50%.
- Integrated speech recognition and text-to-speech for seamless user interaction.

SteelMan Gym Website *HTML, CSS, JavaScript, Netlify*

steelmangym.netlify.app

- Developed a fully responsive gym website for a real-world client with structured service and membership pages.
- Designed a mobile-friendly layout with smooth navigation and interactive UI elements.
- Deployed the website using Netlify for live hosting and public access.

Education

Knowledge Institute of Technology, Salem *2022 – 2026*

B.Tech in Artificial Intelligence and Data Science (Honours) CGPA: 8.3/10

Government Higher Secondary School, Samudram, Salem *2021 – 2022*

Higher Secondary Certificate (HSC) Percentage: 78%

Achievements and Certifications

- Zoho Creator Certified Developer (2025).
- GUVI Certified Python Developer.
- Core Java Programming – Shivashri Academy.
- Data Structures and Algorithms (DSA) Workshop - Finest Coder (2026)
- Designed and deployed websites for real-world clients.
